Ceci, 2014-05-22 First Published in 1986 This is the companion volume to the Handbook of Cognitive Social and Neuropsychological Aspects of Learning Disabilities Vol 1 As such it is a continuation of the theme and approach taken in the first volume There are four thematic sections comprised of three to four chapters each dealing with cognitive micro level and macro level social and neurological characteristics of learning disabled individuals

Technical Report, 1979 *Handbook of Individual Differences, Learning, and Instruction* David H. Jonassen, Barbara L. Grabowski, 2012-12-06 Written for teachers trainers and instructional designers anyone who is responsible for designing or preparing instruction this book begins with one basic premise individual differences mediate

learning at all levels and in all situations That is some learners find it easier or more difficult to learn some skills or to learn from certain forms of instruction because they vary in terms of aptitude cognitive styles personality or learning styles This volume describes most of the major differences in a readable and accessible way and demonstrates how to design various forms of instruction and predict the ease with which learners will acquire different skills Most books that discuss any learner differences focus on those that characterize special education populations whereas this book focuses on normal learners Designed as a handbook this volume is structured to provide easy and consistent access to information and answers and prescriptions and hypotheses When definitive answers are not possible because there is no research documentation the authors suggest theories designed to stimulate future research

The Value of Intellectual Styles Li-fang Zhang, 2017-09-21

Intellectual styles are individuals preferred ways of using their abilities This book provides the first comprehensive and systematic review of existing research on the value and desirability of different intellectual styles By critically analyzing findings from hundreds of international studies undertaken over eight decades Li fang Zhang demonstrates that the creativity generating Type I styles are generally superior to the norm conforming Type II styles in relation to a wide range of learning processes and developmental outcomes work performance physical and mental health and many other domains of people s lives She further demonstrates that people explicitly and implicitly express their preference for Type I styles over Type II styles Professor Zhang elucidates the practical value of cultivating diverse intellectual styles especially Type I styles in both academic and nonacademic settings and lays the groundwork for future research to advance the field of intellectual styles and to inform scholarly work in other academic disciplines

Handbook of Assessment in Childhood Psychopathology Cynthia L. Frame, Johnny L. Matson, 2013-11-21

One of the most important practical problems in child psychology and psychia try is the differential diagnosis of emotional disorders Until recently the gener al mode of assessment had been to apply to children the characteristics of psychopathology that were evident in adults In addition there had been few assessment tools available for use with children aside from modified versions of adult instruments Understandably this approach was controversial and dissatisfaction with it led to the more recent knowledge that adult and child problems may be manifested quite differently The third edition of the Diagnostic and Statistical Manual of Mental Disorders takes these factors into account much more extensively than previous editions Furthermore a great deal of research on methodology in child assessment procedures has emerged recently Yet in spite of these advances practicing clinicians are still frequently at a loss in moving from the characteristics of the disturbed child before them to the final assign ment of a psychiatric diagnosis The focus of this book is to outline the various methods of viewing and categorizing the wide range childhood psycho pathology with special emphasis on the end product of making a differential diagnosis Our goal was to make this book unique in several ways First we attempted to cover a wider range of disorders than is typical in currently available hand books
