The Classic British Seagull Don Meyer, 2005 The British Seagull outboard motor has been manufactured and distributed by England for over sixty years During that time the engine has been known to be The Best Outboard Motor for the World and has gained a reputation for their reliability and durability The Classic British Seagull mainly deals with engines that are built between 1955 and to about 1996 but can also be used for the earlier 102 s and the later EFRN s models This service manual is divided into three sections The first is for general running and operation of the motor which includes how to mount the motor on your transom starting procedures running the motor in different weather conditions general information and maintenance The next section is on how to trouble shoot a non working engine and gives some suggestions on what to look for The third and final section is on servicing and the technical repair for different sections or parts of the motor The Classic British Seagull has a unique and different approach in trouble shooting and servicing then from previously written manuals In doing so many of the hidden trade secrets are revealed In addition this manual will probably give you the reason why something has happened and provide proven techniques to repair and prevent the damage from happening again Besides this the manual offers some insightful general mechanical and boating knowledge This manual is a must for all those boaters that still have these famous motors as it is the best trouble shooting and repair manual that has ever been published for them
