Select the colour of bread required (Dark or Light) using the Bread colour button.

Press the Start button.

The read-out on the display will begin counting down.

Please Note

If you are using setting '9' you will need to press the Start button twice.

The consistency of the dough can be checked by stopping the breadmaker while it is mixing (in the first 7 minutes). Dough should appear pliable and elastic. If too dry, add water one tablespoon at a time. If dough is too moist, add flour.

The beeper will sound to indicate when the bread is baked.

Important

Steam may escape when the lid is opened. Use oven gloves to open the lid to avoid burns.

Please Note

The breadmaker has a 1 hour warm function. If you do not open the lid or press the Stop/Reset button after baking, the bread will remain warm for up to 1 hour. Remove the bread from the bread pan as soon as possible after the 1 hour period, if left in the bread pan the crust will become soggy.

When the beeping stops, press the Stop/Reset button and carefully open the lid of the breadmaker.

Please Note

For the Stop/Reset button to activate, hold down the Stop/Reset button for a full 2 to 3 seconds.

Remove the bread pan using oven gloves, lift the handle and grasp with both hands. Turn the bread pan anti-clockwise to "unlock" and lift the bread pan out of the breadmaker.
