Operator's Manual

Crane Serial Number

The crane serial number is on the Crane Rating Manual in the upper operator's cab. The serial number and a Vehicle Identification Number (VIN) is also stamped on a plate on the front center of the carrier cab dash. The crane serial number should always be furnished when ordering parts for the crane, or when corresponding with the Link-Belt Distributor or factory regarding the crane. The serial number is the only method the

Link-Belt Distributor or factory has of ensuring that the correct parts will be furnished.

In the event the serial number cannot be found, a number is stamped on top of the bumper on the right side of the carrier and on the right side of the upper frame just above the boom hoist cylinder lug. This number can then be used to help to identify the crane.
