and Winston, inc,1996-01 Our environmental problems are huge and they require careful attention and action The twenty
first century will be a crucial time in human history a time when we must find solutions that allow people on all parts of our
planet to live in a clean healthy environment and have the resources they need for a good life p 5 **Enviromental Science**
Holt Rinehart & Winston,Holt, Rinehart and Winston Staff,2003-12-01 **Bibliographic Guide to Education** ,1991 lists
publications cataloged by Teachers College Columbia University supplemented by The Research Libraries of The New York
Publica Library **Holt Environmental Science** Hrw,2008 **Environmental Unions** Craig Slatin,2017-03-02 During
the 1970s and 1980s a hazardous waste management industry emerged in the U S driven by government and polluting
industry responses to a hazardous waste crisis In 1979 labor unions began to seek federal health and safety protections for
workers in that industry and for firefighters responding to hazardous materials fires Those efforts led to a worker health and
safety section in the Superfund Amendments and Reauthorization Act of 1986 The legislation mandated regulation of
hazardous waste operations and emergency response worker protection and establishment of a national health and safety
training grant program which became the Worker Education and Training Program WETP Craig Slatin provides a history of
labor s success on the coattails of the environmental movement and in the middle of a rightward shift in American politics He
explores how the WETP established a national worker training effort across industrial sectors with case studies on the health
and safety training programs of two unions in the WETP the Oil Chemical and Atomic Workers and the Laborers Union
Lessons can be learned from one of the last major worker health and safety environmental protection victories of the 1960s
1980s reform era coming at the end of the golden age of regulation and just before the new era of deregulation and market
dominance Slatin s analysis calls for a critical survey of the social and political tasks facing those concerned about worker
and community health and environmental protection in order to make a transition toward just and sustainable production
