- **Support your mobile workforce** with select wireless ThinkPad T Series notebooks and IBM Access Connections software. It's the easiest way to switch between wired and wireless networks.

- **Deploy the most secure wireless notebooks in the industry** with the IBM Embedded Security Subsystem 2.0. It offers a double layer of built-in hardware and downloadable software-based protection. No other manufacturer offers stronger security as a standard feature.

- **Improve signal reception** with the IBM UltraConnect Antenna. To maximise range, this antenna is built into the display of selected ThinkPad notebooks. Plus, it supports multiple frequencies to optimise coverage and performance.

- **Point and click two ways** with the IBM ThinkPad UltraNav multi-pointing system. It features touchpad technology and the TrackPoint pointing device.

- **Put online[*] and on-system information at your employees' fingertips** with Access IBM. With the push of a button, staff can gain answers to common IT questions.

- **Help guard data against damage from drops and bumps.** The IBM Active Protection System features built-in motion sensors. When a fall is detected, this innovation provides the hard disk drive up to four times greater impact protection than in notebooks without it. That makes it less likely data on your hard disk drive will be lost because of some bumps or drops.

- **Increase hard disk drive protection.** The IBM Hard Disk Drive Shock Absorber increases hard disk drive protection by 30%. This technology is now combined with the IBM Active Protection System for greater protection.

". . . if an average corporation were to apply best operational practices and IBM's ThinkVantage Technologies as defined today, these customers would potentially see reduced ongoing operating costs greater than the cost of new PC or notebook computer hardware itself."
