**Salafi-Jihadism** Shiraz Maher, 2016-11-01 No topic has captured the public imagination of late quite so dramatically as the specter of global jihadism While much has been said about the way jihadists behave their ideology remains poorly understood As the Levant has imploded and millenarian radicals claim to have revived a Caliphate based on the teachings of the Prophet Mohammed the need for a nuanced and accurate understanding of jihadist beliefs has never been greater Shiraz Maher charts the intellectual underpinnings of salafi jihadism from its origins in the

mountains of the Hindu Kush to the jihadist insurgencies of the 1990s and the 9 11 wars What emerges is the story of a pragmatic but resilient warrior doctrine that often struggles as so many utopian ideologies do to consolidate the idealism of theory with the reality of practice His ground breaking introduction to salafi jihadism recalibrates our understanding of the ideas underpinning one of the most destructive political philosophies of our time by assessing classical works from Islamic antiquity alongside those of contemporary ideologues Packed with refreshing and provocative insights Maher explains how war and insecurity engendered one of the most significant socio religious movements of the modern era *Wahhabi Islam* Natana J. DeLong-Bas, 2004-07-15 Before 9 11 few Westerners had heard of Wahhabism Today it is a household word Frequently mentioned in association with Osama bin Laden Wahhabism is portrayed by the media and public officials as an intolerant puritanical militant interpretation of Islam that calls for the wholesale destruction of the West in a jihad of global proportions In the first study ever undertaken of the writings of Wahhabism s founder Muhammad Ibn Abd al Wahhab 1702 1791 Natana DeLong Bas shatters these stereotypes and misconceptions Her reading of Ibn Abd al Wahhab s works produces a revisionist thesis Ibn Abd al Wahhab was not the godfather of contemporary terrorist movements Rather he was a voice of reform reflecting mainstream 18th century Islamic thought His vision of Islamic society was based upon a monotheism in which Muslims Christians and Jews were to enjoy peaceful co existence and cooperative commercial and treaty relations Eschewing medieval interpretations of the Quran and hadith sayings and deeds of the prophet Muhammad Ibn Abd al Wahhab called for direct historically contextualized interpretation of scripture by both women and men His understanding of theology and Islamic law was rooted in Quranic values rather than literal interpretations A strong proponent of women s rights he called for a balance of rights between women and men both within marriage and in access to education and public space In the most comprehensive study of Ibn Abd al Wahhab s interpretation of jihad ever written DeLong Bas details a vision in which jihad is strictly limited to the self defense of the Muslim community against military aggression Contemporary extremists like Osama bin Laden do not have their origins in Wahhabism she shows The hallmark jihadi focus on a cult of martyrdom the strict division of the world into two necessarily opposing spheres the wholesale destruction of both civilian life and property and the call for global jihad are entirely absent from Ibn Abd al Wahhab s writings Instead the militant stance of contemporary jihadism lies in adherence to the writings of the medieval scholar Ibn Taymiyya and the 20th century Egyptian radical Sayyid Qutb This pathbreaking book fills an enormous gap in the literature about Wahhabism by returning to the original writings of its founder Bound to be controversial it will be impossible to ignore **Princeton Alumni Weekly**, 1980 **Islam after Communism** Adeeb Khalid, 2014-02-08 How do Muslims relate to Islam in societies that experienced seventy years of Soviet rule How did the utopian Bolshevik project of remaking the world by extirpating religion from it affect Central Asia Adeeb Khalid combines insights from the study of both Islam and Soviet history to answer these questions Arguing that the sustained Soviet assault on Islam destroyed patterns of Islamic learning and thoroughly de

Islamized public life Khalid demonstrates that Islam became synonymous with tradition and was subordinated to powerful ethnonational identities that crystallized during the Soviet period He shows how this legacy endures today and how for the vast majority of the population a return to Islam means the recovery of traditions destroyed under Communism Islam after Communism reasons that the fear of a rampant radical Islam that dominates both Western thought and many of Central Asia's governments should be tempered with an understanding of the politics of antiterrorism which allows governments to justify their own authoritarian policies by casting all opposition as extremist Placing the Central Asian experience in the broad comparative perspective of the history of modern Islam Khalid argues against essentialist views of Islam and Muslims and provides a nuanced and well informed discussion of the forces at work in this crucial region *Wahhabi Islam : From Revival and Reform to Global Jihad* Center for Muslim-Christian Understanding Georgetown University Natana J. ***When Politics are Sacralized*** Nadim N. Rouhana, Nadera Shalhoub-Kevorkian, 2021-05-27. Over the years, there have been increasing intersections between religious claims and nationalism, and their power to frame and govern world politics. *When Politics Are Sacralized* interdisciplinarily and comparatively examines the fusion between religious claims and nationalism and studies its political manifestations. State and world politics when determined or framed by nationalism fused with religious claims can provoke protracted conflict, infuse explicit religious beliefs into politics, and legitimize violence against racialized groups. This volume investigates how, through hegemonic nationalism, states invoke religious claims in domestic and international politics, sacralizing the political. Studying Israel, India, the Palestinian National Movement, and Hamas, Sri Lanka, Saudi Arabia, Serbia, Iran, and Northern Ireland, the thirteen chapters engage with the visibility, performativity, role, and political legitimation of religion and nationalism. The authors analyze how and why sacralization affects political behaviors apparent in national and international politics, produces state-sponsored violence, and shapes conflict.
