Chapter 1 describes the environment that has influenced both the development and use of the financial accounting process.

(L.O. 1) Major financial statements and financial reporting.

#### Financial Reporting Environment

Financial reporting is: identification, measurement, and communication of financial information (draws a difference between financial statements and financial reporting).

a. Financial statements:

- (1) Income statement.
- (2) Balance sheet.
- (3) Statement of cash flows.
- (4) Statement of owners' or stockholders' equity.

b. Other financial reporting means:

- (1) President's letter or supplementary schedules in the annual report.
- (2) Prospectuses.
- (3) Reports filed with the SEC and other government agencies.
- (4) News releases and management forecasts.
- (5) Social or environmental impact statements.

#### Accounting and Capital Allocation

Accounting is important for markets, free enterprise, and competition because it assists in providing information that leads to capital allocation. The better the information, the more effective the process of capital allocation and then the healthier the economy.
