Dennis Chambers,2007-12-30 Entrepreneurs and entrepreneurial companies live or die by the quality of their plans and proposals Whether it s to get funding for a new product line or business from a client writing hard hitting prose that answers essential questions and makes specific requests is an indispensable skill Entrepreneur ad man and writing teacher Dennis Chambers shows how entrepreneurs can persuade people through skillful writing to pony up capital or contracts This ability which can be learned is rare in today s media saturated world But it counts more than ever if an entrepreneur wants to make it over the magical five year hump and on into lasting business success Numerous examples and exercises ensure that entrepreneurs understand how the writing game is played and that they play it well Unfortunately most don t play this game well Most business writers mistakenly believe their task is to inform They write to fill an information gap or to update the reader on a particular project Or they write about what s important to them What these writers do not take into account is that the speed of today s work world has reached overdrive The typical reader simply doesn t have time to ponder dense poorly organized information and intuit the appropriate action And readers don t give a hoot about what s important to the writer they want to know what s in it for themselves Business writers need to use all the tools at their command to persuade inspire action and in general move a project forward This book is about how to be persuasive in two key skills in business writing proposals and writing business plans Step by step Dennis Chambers illustrates the techniques of effective business writing with numerous examples throughout Whether the objective is to

secure financing from an investor lay out a marketing strategy or secure a large contract getting results requires crafting an effective structure for the proposal and using words that sell Chambers is an able guide in saving entrepreneurs time and undue effort while reaching the goal of long term business success

**Autocar**, 1998 **Pursued** Wayne F. Smith, 2006-03-29 The challenge for me in writing this book was to blend factual incidents with fictional characters and events in a way that would be entertaining as well as educational for the readers regardless of their background and experience Although the active characters and events described in this novel are fictional they are based upon real incidents and real people The depiction of their ancestors is factual and taken from history news articles and internet interviews After the book was written in a surprisingly short time I found some errors in the information I had received It took weeks of travel and many interviews in British Columbia the Yukon Territory Alberta and Alaska to sort out the truth Interviews with geologists archeologists historians pilots and airplane mechanics were all necessary to authenticate some of the scenes in this book The places depicted actually exist I have been there In a few cases the names have been changed to protect the owners of various facilities The Characters both human and animal and the actions depicted in this novel are based upon real life incidents Humans are a very complex species and how they act in private may be entirely different from the image they present in public It has been said that we all have demons inside that we must deal

with I have attempted to expose some of the demons inside the principal characters and to show how they coped or in some cases could not cope with them To a certain extent this book is a survival guide It pits man against man emotion against emotion man against animal and man against nature in all its fury Most of all it is a book about being PURSUED Man is PURSUED by man man is PURSUED by animal man is PURSUED by nature and the elements and man is PURSUED by himself and the demons within him A complex series of events brought the passengers together on this doomed flight into the Arctic winter night You will get to know each intimately by the end of the book How was the pilot able to find a place to land in the ice and snow How did they survive that 40 degree below zero weather What did they do when they found 60 million dollars in Mafia money hidden in the plane How did they get back to civilization You will find out when you read this book
