Studies of the Paris Manuscripts Lixin Han,2020-02-22 This book is devoted to the studies of Karl Marx's Paris Manuscripts and presents a new interpretation of early Marx arguing that his transition to maturity can be found in these manuscripts and specifically in Comments on James Mill which was drafted between the First Manuscript and the Second Manuscript In Comments on James Mill Marx succeeds in transferring his theoretical framework from the isolated individual to the society and establishes his basic goal i e to explicate the nature of humans and society from the perspective of external economic relations marking the advent of historical materialism This study reopens the possibility of interpreting the Paris Manuscripts from the perspective of Hegel According to the author it was during the Paris Manuscripts period that Marx shifted his theoretical foundations from Feuerbach to Hegel On the basis of Hegel's alienation concept Marx constructs a new form of alienation theory with alienation of intercourse at its core The theoretical challenge tackled by this book is to restore the authority of alienation theory and strengthen the position of the Paris Manuscripts in the history of Marx thought so as to rearrange the traditional landscape of research on early Marx thought This interpretation proposed and published for the first time in the world could compete with the theses of Louis Althusser and Hiromatsu Wataru which consider Die deutsche Ideologie to be the turning point of Marx Further it represents a significant contribution by a Chinese scholar to the international research on Marx **Vathek** William Beckford,2013-06-13 Woe to the rash mortal who seeks to know that of which he should remain ignorant and to undertake that which surpasseth his power The Caliph Vathek is dissolute and debauched and hungry for knowledge When the mysterious Giaour offers him boundless treasure and unrivalled power he is
