POPULATIONS FOR JCS USE

The JCS has been used nationally and internationally in numerous studies/projects with many different clinical and well populations, and with a wide range of age groups (including adolescents and elderly). The instrument has been employed by a variety of professional disciplines for both research and clinical practice.

The JCS can be completed either by interview or by the individual subject/patient. Explicit directions on the instrument allow for easy self-administration. It takes 10-15 minutes to complete the JCS. The instrument has been evaluated by reading-level specialists and found to have a sixth-grade reading level; therefore the JCS is easily
