Designing Usable Texts covers the analysis of textual communication processes in the real world of publishing systems and work sites. The book presents topics on designing and understanding of written texts, authoring, editing, and the production process, and training authors of informative documents. The text also describes the policies and processes of editing lessons in text design from an instructional design perspective, and graphics and design alternatives such as studying strategies and their implications for textbook design. The identification of information requirements such as understanding readers and their uses of texts, modeling users and their use of technical manuals is also considered. Psychologists and people involved in communication design, document design, information mapping, and educational technology will find the book invaluable.

Today's dynamic and persistent operating environment has placed unprecedented demands on our military personnel. By focusing on mind, body, and spirit, PERRES ensures that Marines not only are physically strong but also possess the mental focus and unconquerable spirit necessary to persevere under the extreme stress of a high operational tempo and through the unknowns of asymmetric warfare. PERRES trains with renewal in mind, focusing on the resilience of the individual unit and family. PERRES is unique in integrating high-level athletic training and nutrition with a focus on warrior values, including dedication to family, country, unit, and mission.
