L'Échec De L'aide Internationale A Haiti Dilemmes Et Egarements:

L'échec de l'aide internationale à Haïti Ricardo Antônio Silva Seitenfus, 2015 Well documented study by international relations specialist on the many incongruences between the amounts of monetary and direct international aid to Haiti and the day to day reality that much of that aid never reaches the Haitian people in need particularly after the 2010 earthquake and the cholera epidemic that followed Humanitarian Aftershocks in Haiti Mark Schuller, 2016-01-12 The 2010 earthquake in Haiti was one of the deadliest disasters in modern history sparking an international aid response with pledges and donations of 16 billion that was exceedingly generous But now five years later that generous aid has clearly failed In *Humanitarian Aftershocks in Haiti* anthropologist Mark Schuller captures the voices of those involved in the earthquake aid response and they paint a sharp unflattering view of the humanitarian enterprise Schuller led an independent study of eight displaced persons camps in Haiti compiling more than 150 interviews ranging from Haitian front line workers and camp directors to foreign humanitarians and many displaced Haitian people The result is an insightful account of why the multi billion dollar aid response not only did little to help but also did much harm triggering a range of unintended consequences rupturing Haitian social and cultural institutions and actually increasing violence especially against women The book shows how Haitian people were removed from any real decision making replaced by a top down NGO dominated system of humanitarian aid led by an army of often young inexperienced foreign workers Ignorant of Haitian culture these aid workers unwittingly enacted policies that triggered a range of negative results Haitian interviewees also note that the NGOs planted the flag and often tended to just do something always with an eye to the photo op in no small part due to the competition over funding Worse yet they blindly supported the eviction of displaced people from the camps forcing earthquake victims to relocate in vast shantytowns that were hotbeds of violence *Humanitarian Aftershocks in Haiti* concludes with suggestions to help improve humanitarian aid in the future perhaps most notably that aid workers listen to and respect the culture of the victims of catastrophe *Evangelicals, Catholics, and Vodouyizan in Haiti* Celucien L. Joseph, Lewis A. Clorméus, 2024-04-04 Exploring the subject through many different theoretical frameworks and epistemological traditions this book confronts the history of Haiti's three major practicing religious faiths Vodou Roman Catholicism and Protestant Evangelicalism Scholars researchers and faith practitioners have often depicted relations between these traditions as antagonistic conflicting unproductive and lacking in mutual understanding With the aim of exploring the possibility of nation building in Haiti and the benefits of interreligious collaboration contributors to this book consider topics such as the obstacles to interfaith dialogue religious conflict interreligious dialogue in schools race and identity and religious pluralism This book will be beneficial to scholars practitioners historians and sociologists of religion as well as the religious communities themselves in Haiti and the Haitian Diaspora *Urban Dwellings, Haitian Citizenships* Vincent Joos, 2021-12-10 Developing disasters dispossession and industrialization in Northern Haiti Industrial futures abstract and disciplinarian landscapes in post earthquake Haiti State in

is seen as a prerequisite for a successful transition towards peace and stability In this book Lou Pingeot questions this optimistic reading of police peacekeeping and demonstrates that the logic of policing leads to the depoliticization of conflict and the criminalization of those who are deemed to threaten not just public order but social order authorizing violence against them in the name of law enforcement Police Peacekeeping proposes a new way of studying peace operations that focuses not on their success or failure but on how they allow people and ideas to circulate transnationally It shows that peace operations act as a point of cross fertilization for the creation and transmission of policing discourses and practices globally In so doing these missions contribute to re producing social orders that are based on the exclusion of often racialized socio economically marginalized populations both domestically in countries of intervention and internationally in troop contributing countries The book draws on and contributes to critical understandings of police power that show that police forces were never meant to protect all equally It also furthers our understanding of policing at a global level Drawing on interpretive feminist and postcolonial methodologies that emphasize relations processes and situatedness Lou Pingeot s in depth study of UN intervention in Haiti shows how a single site can help illuminate global processes Rather than starting from Haiti s supposed deviance from international expectations and norms she posits that Haiti can reveal a great deal about how policing functions globally

livre de Ricardo Seitenfus offre une précieuse base de données sur le mode opératoire de l'international en Haïti. Pour ceux qui en doutaient encore, les preuves de l'ingratitude internationale dans les affaires d'Haïti sont maintenant accessibles. Ses points sont valides et inaliénables. On ne peut désormais les ignorer. Dans le cadre diplomatique international dans lequel nous évoluons, on peut considérer Ricardo Seitenfus comme un Whistleblower qui tire la sonnette d'alarme. Un Whistleblower qui non seulement révèle mais dévoile également la complexité des implications de la présence internationale protiforme en Haïti. Nous vivons une époque dans laquelle les puissants n'hésitent pas littéralement à marcher sur des cadavres. Et Haïti, de l'après-tremblement de terre de janvier 2010 illustre cet état de fait. Saluons l'expérience authentique et soulignons la valeur et la force de ce livre. Force qui réside dans la capacité de son auteur, être un témoin direct, mieux être un acteur vital des moments clés dans ce mélodrame invraisemblable. Il a su le faire, la bonne distance, sans jamais s'écarter en pro-consul post-colonial. La fameuse journée lectorale du 28 novembre 2010, longuement décrite dans le livre, nous livre la meilleure illustration de ce type de comportement abusif. Ricardo Seitenfus raconte dans les moindres détails le récit de cette folie. Si ce livre a bien une raison d'être, c'est avant tout pour cette incroyable scène. Le babatise impérialiste dans toute sa laideur et *L'action humanitaire de l'Union européenne dans les pays du Sud* Moïse Jean, 2017. Extrait de la 4^e de couverture. Lancé dans les années 1960, l'aide humanitaire de l'Union européenne se rationalise progressivement et dispose aujourd'hui d'une base juridique. L'heure actuelle, l'Union se positionne comme le plus gros bailleur d'aide institutionnelle à l'échelle planétaire. Cependant, entre les normes humanitaires de l'UE et la réalité sur le terrain des crises, existe un grand fossé. Le cas d'Haïti est emblématique sur ce point. L'ouvrage invite à rechercher les causes de l'échec de la reconstruction d'Haïti.
