[A Guide to Mechanical Circulatory Support](#) Scott Stewart, Peggy Blood, 2022-11-08. This unique book details a multidisciplinary approach for providers caring for the Mechanical Circulatory Support (MCS) patient. Authors discuss the history of MCS patient selection, surgical and post-operative care, mobility and nutritional issues for this subgroup of patients along with outpatient management. They are expert clinicians in the field of MCS and Extracorporeal Membrane Oxygenation (ECMO) who provide direct patient care, conduct research, publish and maintain current leadership positions within the International Society of Heart and Lung Transplant and International Consortium of Circulatory Assist Clinicians. Non-clinical issues including Regulatory Reimbursement, Administration, Program Development and links to Professional Organizations supporting MCS Clinicians are presented in the book that will be of great value to Nurses first but also to Advanced Practice Providers, NP, PA, Dietitians, Physical Therapists and Administrators. [Design Manual, Mechanical Engineering](#) United States. Naval Facilities Engineering Command, 1972. [Guide to Information Sources in Engineering](#) Charles Lord, 2000-08-15. The only source that focuses exclusively on engineering and technology, this important guide maps the dynamic and changing field of information sources published for engineers in recent years. Lord highlights basic perspectives, access tools and English language resources, directories, encyclopedias, yearbooks, dictionaries, databases, indexes, libraries, buyer's guides, Internet resources and more. Substantial emphasis is placed on digital resources. The author also discusses how engineers and scientists use information, the culture and generation of scientific information, different types of engineering information and the tools and resources you need to locate and access that material. Other sections describe regulations, standards and specifications, government resources, professional and trade associations and education and career resources. Engineers, scientists, librarians and other information professionals working with engineering and technology information will welcome this research.
