Rethinking Social Exclusion Simon Winlow, Steve Hall, 2013-11-13 classic Winlow and Hall bleak brilliant and unmatched in the art of rethinking crucial social issues Enlightening and rather scary Professor Beverley Skeggs Goldsmiths University of London This superb book inhabits a unique theoretical space and demonstrates Winlow and Hall at their brilliant best as theorists of contemporary social exclusion Professor John Armitage University of Southampton making exemplary use of critical theory this book represents a powerful rallying response to Benjamin's notion that It is only for the sake of those without a hope that hope is given to us Dr Paul A Taylor author of Zizek and the Media an intellectual tour de force Winlow and Hall outriders of a radically different political economy for our era have done it again Their latest book is the critical criminology book of the decade and the best account of capitalism since the 2008 crash A devastating critical analysis of the effects of neo liberalism Professor Steve Redhead Charles Sturt University I had long regarded social exclusion to be another zombie concept that retained no analytic or political purchase whatsoever This book has changed my mind Professor Roger Burrows Goldsmiths University of London In their quest to rethink the study of social exclusion Winlow and Hall offer a startling analysis of social disintegration and the retreat into subjectivity They claim that the reality of social exclusion is not simply displayed in ghettos and sink estates It can also be discerned in exclusive gated housing developments in the non places of the shopping mall in the deadening reality of low level service work and in the depressing uniformity of our political parties Simon Winlow is Professor of Criminology at the Social Futures Institute Teesside University Steve Hall is Professor of Criminology at the Social Futures Institute Teesside University **Austerity as Public Mood** Kirsten Forkert, 2017-09-20 Austerity as Public Mood explores how politicians and the media mobilise nostalgic and socially conservative ideas of work and community in order to justify cuts to public services and create divisions between the deserving and undeserving It examines the powerful appeal of these concepts as part of a wider public mood marked by guilt nostalgia and resentment particularly around the inequalities produced by global capitalism and changes to the nature of work In doing so the book engages with urgent questions about the contemporary political climate Focusing on the UK it challenges accounts of neoliberalism which frame it as primarily an individualising force and localist definitions of

community as mitigating its damaging effects Finally it explores how resistance to austerity can challenge these tendencies by offering a politics of solidarity and hope and a forum for experimentation with alternative forms of collectivity
