and planning Likewise the party's support for redistributive taxation and social welfare provision was frequently qualified by the insistence that the ultimate Liberal aim was not the expansion of the functions of the state but the pursuit of ownership for all Liberal policy was thus shaped not only by the ideas of reformist intellectuals such as John Maynard Keynes and William Beveridge but also by the libertarian and distributist concerns of Liberal activists and by interactions with the early neoliberal movement This study concludes that it was ideological and generational changes in the early 1960s that cut the party's links with the New Right opened up common ground with revisionist social democrats and re-established its progressive credentials
