- | Question | Answer |
|---|--|
| 1. What is the main purpose of the study? | The study is intended to investigate the effects of the proposed system on the performance of the system. |
| 2. What are the objectives of the study? | The objectives of the study are to: (a) determine the effect of the proposed system on the performance of the system; (b) determine the effect of the proposed system on the cost of the system; (c) determine the effect of the proposed system on the time of the system. |
| 3. What are the hypotheses of the study? | The hypotheses of the study are: (a) the proposed system will have a positive effect on the performance of the system; (b) the proposed system will have a positive effect on the cost of the system; (c) the proposed system will have a positive effect on the time of the system. |
| 4. What are the variables of the study? | The variables of the study are: (a) the proposed system; (b) the performance of the system; (c) the cost of the system; (d) the time of the system. |
| 5. What are the methods of the study? | The methods of the study are: (a) the proposed system; (b) the performance of the system; (c) the cost of the system; (d) the time of the system. |
| 6. What are the results of the study? | The results of the study are: (a) the proposed system has a positive effect on the performance of the system; (b) the proposed system has a positive effect on the cost of the system; (c) the proposed system has a positive effect on the time of the system. |
| 7. What are the conclusions of the study? | The conclusions of the study are: (a) the proposed system is a good system; (b) the proposed system is a good system; (c) the proposed system is a good system. |
