, Central American English John A. Holm, Geneviève Escure, 1983 This volume is about the Anglophone creoles to be found on the Caribbean coast of Central America Belize Honduras Nicaragua Costa Rica Panama and its offshore islands Providencia San Andrés and the Caymans The study of these Anglophone varieties is comparatively recent and based on current field work from Belize to Panama One of the interesting features that emerges is the tentative map of diachronic and synchronic relationships among the Anglophone creoles of the Caribbean as illustrated partly by the lexicon and partly by grammatical constructions The studies in this book are based on phonetic transcriptions of speech acts in their social and linguistic context *English Words* Donka Minkova, Robert Stockwell, 2009-03-19 This new edition is concerned primarily with the learned vocabulary of English the words borrowed from the classical languages It surveys the historical events that define the layers of vocabulary in English introduces some of the basic principles of linguistic analysis and is a helpful manual for vocabulary discernment and enrichment The new edition has been updated with a discussion of the most recent trends of blending and shortening associated with texting and other forms of electronic communication and includes a new classification of the types of allomorphy It discusses important topics such as segment sonority and the historical shifting of long vowels in English and includes a new section on Grimm's law explaining some of the more obscure links between Germanic and Latinate cognates Exercises accompany each chapter and an online workbook contains readings and exercises to strengthen knowledge acquired in the classroom **A Universal and Critical Dictionary of the English Language** Joseph Emerson Worcester, 1887 **A Pronouncing, Explanatory, and Synonymous Dictionary of the English Language ...** Joseph Emerson Worcester, 1858 **Shaetlan** Prof. Dr. Viveka Velupillai, Roy Mullay, 2025-05-15 Shaetlan Dis is da first bilingual grammar o Shaetlan da language at predaets English ithin Shetland da maist norderly bit o da UK Da language is o mixed ancestry wi Norn an Scots as its main input languages bit wi a linguistic history shaepit bi closs contact wi da Low Country Germanic languages becis o da intense Hanseatic an fysheen traedes Shaetlan is b n braaly stigmatised ower da hindmaist twa hunder year an is nivver b n tocht richt fir se Noo hit s ithin a precarious poseetion wi less an less young fokk takkin til it fae dir aald fokk Hoosumivver da backbonn o da language is bidden strong an still shaas da rare Mixed Language forebears no j st ithin da vocabulary bit ithin its grammar an aa Da grammar tells aboot da language fae a linguistic typological ootlook and sets it ithin a wirlld typological context He s a linguistically kantit book bit is b n written fir aabody tae read Da data is maed up o 37 5 ooers o archival recoardeens yun s aboot 400 000 wirds fibye dat de r mair as 9 year o interviews participant observation an immersion Da book starts wi seven contributions fae midder tongue spaekers o Shaetlan He s dan spleet inti twa pairts Pairt I tells da historico linguistic r ts ti Shaetlan tells aboot its status an plaess ithin Shetland daday shaas da science ahint caain hit a Mixed Language an offers a orthography at s b n pitten tigidder fir da data gaddered fir Da Shaetlan Proiect Pairt II gies a grammatical description o Shaetlan as it stands noo sin a gineral typological

linguistic framework and is laid out like a conventional typological linguistic grammar. The book is bilingual apart from a few bits from the mother tongue speakers at intervals in Shetland as is only right. English. This is the first bilingual grammar of Shetland, the language which pre-dates English in Shetland, the northernmost part of the UK. The language is of a mixed ancestry with Norse and Scots as its main input languages but with a linguistic history shaped by intense contact with the Low Country Germanic languages due to the intense Hanseatic and fishing trades. Shetland has seen severe stigmatisation over the last few centuries and has never been formally recognised. It is now in an endangered state with dwindling intergenerational transmission. However, the structure of the language has remained remarkably resilient and still shows its unique Mixed Language ancestry not only in its vocabulary but also in its grammar. This grammar describes the language from a linguistic typological perspective and places it in a global typological context. While it is a linguistically oriented book, it is written to be accessible for the general public. The data consists of 37.5 hours of archival recordings which represents a corpus of about 400,000 words as well as more than nine years of interviews, participant observation and immersion. The book starts with seven contributions by Shetland mother tongue speakers. It is then divided into two parts. Part I sets the scene and gives the historical linguistic background to the formation of Shetland, discusses its status and place in society today, shows the data for classifying it as a Mixed Language in its own right and presents the orthography used for the data in the Shetland Project. Part II gives a grammatical description of contemporary Shetland using a general typological linguistic framework and structured as a conventional typological linguistic grammar. The entire book is bilingual with the exception of the seven introductory contributions by Shetland mother tongue speakers which are in Shetland only.
