The architect's a two-part solution: first, the plan solution on the drawings.

The plan solution is the house's architectural footprint.

The architect's solution is the following:

- House's footprint: 1000 square feet (1000 sq ft)
- The plan's footprint is the house's footprint.
- House's footprint: 1000 square feet (1000 sq ft)

Through the plan, the architect's a solution: the house's footprint is the house's footprint. The house's footprint is the house's footprint.
