

IB Application Essay Sample After

Since I was young, I've always appreciated a challenge. Maybe it came with growing up in a household with two older brothers, in which everything always turned out to be a competition. Due to a challenge from my oldest brother, I started developing my interest in science and research. He had dared me to try and capture a firefly and keep it alive, and this led me to conduct a week of research on the biology of fireflies and other insects before I was ready to show him the results. Not one to back down from a challenge that would make me better, I hope to be able to be accepted to the International Baccalaureate program, which will help me further develop and hone my academic skills.

Becoming a scientist in the future has always been my dream goal. My older brothers have shown me the importance of not only facing life's challenges with courage and determination, but also have shown me that I have to work for what I want in life. This IB program will allow me to accrue valuable college credits, which will not only prepare me for the rigors of college work, but will also allow me to ease the financial burden of college for my parents by using test credits in lieu of introductory coursework.

As an honors student who has never shied away from hard work, I know that the IB program will present new challenges for me to face, and I look forward to growing through the opportunities provided. This program will give me the opportunity to push myself harder at an academic and personal level, where I will be exposed to concepts as well as study techniques at an advanced level. In addition to the college credit, the discipline and interpersonal skills I will gain from this program will be invaluable to me in the future as I progress onto college and beyond.
