Pro SQL Server Disaster Recovery James Luetkehoelter,2008-06-24 Many would argue that the single most important job of a SQL Server database administrator is to be able to recover your database in the event of loss or damage Pro SQL Server Disaster Recovery helps you meet that goal by showing you how to think about and plan for potential problems You ll learn to

anticipate and reduce the likelihood of a disaster and to mitigate the effects of a disaster when one does occur Perhaps most importantly you ll learn how to prepare so that you can return a system to its normal state quickly ensuring system availability and the continued success and operation of your business Many SQL Server features and technologies are or can be put to good use in disaster recovery planning In this book you ll learn about powerful tools and features such as Database Snapshots and Mirroring for data backup and disaster recovery that are present in SQL Server 2005 and that are enhanced in SQL Server 2008 Also covered are common issues to expect when using these features This book explores your options by examining the technical details of disaster recovery features and then applying that knowledge to practical scenarios There s a human side to disaster recovery planning as well Like few other activities disaster recovery planning requires that you work closely with a wide variety of people from all across your organization People skills are as critical to disaster recovery planning as technical skills and perhaps more so This book does not leave you in the dark but provides sound advice on how to keep disaster recovery planning projects on track how to avoid dangerous scope creep and how to work effectively with the variety of personality types that you will encounter Disaster recovery planning is really about sleep When you get the call at 3 00 am that your database is lost don t wake up with that icy feeling in your veins Instead wake up with confidence that you have a plan in place aplan that you ve practiced that management has bought into a plan that you can execute even while half asleep to get your database your company and your job back on track
