Grover, 2012-01-05 This book provides an original legal analysis of child soldiers recruited into armed groups or forces committing mass atrocities and or genocide as the victims of the genocidal forcible transfer of children. Legal argument is made regarding the lack of criminal culpability of such child soldier recruits for conflict related international crimes and the inapplicability of currently recommended judicial and non judicial accountability mechanisms in such cases. The book challenges various anthropological accounts of child soldiers alleged tactical agency to resist committing atrocity as members of armed groups or forces committing mass atrocity and or genocide. Also provided are original interpretations of relevant international law including an interpretation of the Rome Statute age based exclusion from prosecution of persons who were under 18 at the time of perpetrating the crime as substantive law setting an international standard for the humane treatment of child soldiers **The Publishers' Trade List Annual**, 1985 **Is Medical Ethics in Armed Conflict Identical to Medical Ethics in Times of Peace?** Janet Kelly, 2014-09-18 This book challenges the World Medical Association's WMA International Code of Ethics statement in 2004 which declared that medical ethics in armed conflict is identical to medical ethics in times of peace. This is achieved by examining the professional ethical and legal conflicts in British Military healthcare practice that occur in three distinct military environments. These are i the battlefield ii the operational environment and iii the non operational environment. As this conflict is exacerbated by the need to achieve Operational Effectiveness this book also explores the dual loyalty conflict.

that Military Health Care Professionals MHCPs encounter between following military orders and professional codes of practice The method used to challenge the WMA s statement and explore these conflicts is the use of real life problem solving vignettes which mirror actual ethical and professional conflicts and dilemmas that may occur in the three environments The areas of law analysed similarly reflect the difficulties that MHCPs face when caring for the sick and wounded in violent locations when under attack In particular the book questions whether it is right for a MHCP to owe their patients a duty of care in hostile environments This leads on to questioning if any MHCP could be protected by combat immunity where no duty of care is owed to fellow soldiers in the battlefield The book also questions whether the standard of care should be variable in hostile environments It also explores the dual loyalty conflict of a wounded senior officer refusing treatment from a junior officer In addition it examines the difficulties of a doctor maintaining patient confidentiality when a soldier refuses treatment for a psychological injury but wishes to redeploy to the battlefield The book successfully challenges the WMA s statement It also concludes by suggesting that neither a military focused approach nor a professional healthcare focused approach towards military healthcare is the best way to solve the dual loyalty conflict *American Book Publishing Record* ,2001 **Forthcoming Books** Rose Arny,2003 *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *Subject Guide to Books in Print* ,2001 Popular Science ,1980-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better **Farmers and Consumers Market Bulletin** ,2010 McCormick International B-414 Tractor Chassis International Harvester Company of Great Britain,1964 Manual covers petrol and diesel engines Physics Letters ,1997 **Annual Report of the European Organization for Nuclear Research** European Organization for Nuclear Research,1998
