

## INTRODUCTION

Compiled in this book are operating and maintenance instructions for the **MCCORMICK INTERNATIONAL DIESEL TRACTOR**. This material has been prepared in detail to help you to better understand the correct care and efficient operation of your tractor.

If you should need information not given in this manual, or require the services of a trained mechanic, get in touch with the International Harvester dealer in your locality. Dealers are kept informed on the latest methods of servicing tractors. They carry stocks of I.H. parts and are backed in every case by the full facilities of International Harvester.

Throughout this manual the use of the terms **LEFT - RIGHT - FRONT - REAR** must be understood to avoid confusion when following instructions. **LEFT** and **RIGHT** indicate the left and right sides of the tractor, when facing forward in the driver's seat. Reference to **FRONT** indicates the radiator end of the tractor; to **REAR**, the drawbar end. (See *Illustr. A*).

When in need of parts, always specify the tractor and engine serial numbers. The tractor serial number is stamped on a name plate attached on the right side of the clutch housing. (See *Illustr. B*). The engine serial number is stamped on the right of the engine crankcase. (See *Illustr. B1*). This serial number is preceded by the prefix **BD-144**, which indicates that it is a diesel engine with a 144-cubic inch piston displacement.

*Illustr. "A"*

For ready reference, we suggest that you write these serial numbers in the spaces provided above the illustrations.

*Illustr. "B" - Location of tractor serial number*

*Illustr. "B1" - Location of engine serial number*
