Catechism primers are inconspicuous but telling little books for children combining the teaching of reading skills and religious catechesis From the 16th to the 19th centuries they have been produced disseminated and used in huge numbers in many regions of the world in particular in Europe Remarkably similar texts appeared across the continent spanning confessional traditions that were in other respects highly divergent In different places and across the whole period different denominations used not only similar pedagogical and religious strategies but also shared the same formats and iconography This volume edited by scholars from Finland Germany Switzerland and the United Kingdom is the result of a collaborative transnational and interdisciplinary effort including education language teaching children s literature book history and religious studies With contributions on seventeen European countries and regions it sheds new light on a fascinating but largely neglected part of European cultural heritage and by establishing a comprehensive and authoritative summary of the field offers fresh impetus for further transnational research *Catalogue of Printed Books* British Museum.
