**for the Golden Trout** Douglas M. Thompson,2013-09-22 The angler s dream of fishing pristine waters in unspoiled country  
for sleek healthy trout has turned fishing into a form of theater It is a manufactured experience much to the detriment of our  
rivers and streams Americans love of trout has reached a level of fervor that borders on the religious Federal and state  
agencies as well as nongovernmental lobbying groups invest billions of dollars on river restoration projects and fish stocking  
programs Yet their decisions are based on faulty logic and risk destroying species they are tasked with protecting River  
ecosystems are modified with engineered structures to improve fishing native species that compete with trout are eradicated  
and nonnative invasive game fish are indiscriminately introduced genetically modified and selectively bred to produce more  
appealing targets for anglers including the freakishly contrived golden trout The Quest for the Golden Trout is about looking  
at our nation s rivers with a more critical eye and asking more questions about both historic and current practices in fisheries
