**Memorandum For Exemplar Grade11 2013:**

*Metrics, Standards and Alignment in Teacher Policy* Jessica Holloway, 2021-01-07 This book looks at the narrowing effects of contemporary modes of teacher and teaching policy and governance. It draws on political theory to provide new ways of conceptualising the effects of teacher and teaching policies and practices. It adds a new dimension to the robust body of literature related to teacher policy by looking at three interrelated domains: 1. teacher preparation and development, 2. teacher evaluation, and 3. teacher leadership. Drawing from case studies from the USA, UK, and Australia, it illustrates how a coalescence around metrics, standards, and compliance is producing increasingly restricted notions of teachers and teaching. It shows how the rationalities and techniques associated with accountability and standardisation are limiting the possibilities for multiple conceptualisations of teaching and teachers to exist or emerge. Using pluralism as the main framework, it challenges the dangers associated with rigid compliance and alignment and argues that pluralism can help secure schools as socially and culturally responsive to the needs of the community.
