

# Animal Farm Revision Guide

## Chapter I

After lights out, all the animals gather in the big barn to hear old Major communicate his strange dream of the previous night. Before doing so, he imparts his life learnings: that the existence of animals is one of toil and drudgery and that Man is the enemy; if animals are to ever achieve better lives then they must unite against Man. A vote is held to ascertain whether wild creatures such as rats should be considered comrades; though an overwhelming majority votes that they are, there are a few in opposition.

His dream was the remembrance

### Power and Control

Power means to many things:

- political power and government;
- strength, resistance and physical prowess;
- knowledge and wisdom (power for the sake of power).

Power is not in itself a bad thing, but with great power comes great responsibility... who might oppress you, must first oppress them. Napoleon knows what animals are capable of, and knows that if they are not properly controlled, they will soon go wild. If they are not properly controlled, they will soon go wild. If they are not properly controlled, they will soon go wild.

Power is not in itself a bad thing, but with great power comes great responsibility... who might oppress you, must first oppress them. Napoleon knows what animals are capable of, and knows that if they are not properly controlled, they will soon go wild. If they are not properly controlled, they will soon go wild. If they are not properly controlled, they will soon go wild.

It is ironic that Napoleon gains absolute power, which has been the most obvious power.

### Context

As the novel opens, Napoleon is the most powerful animal in the farm. He is the one who has the most power, and he is the one who is the most powerful. He is the one who has the most power, and he is the one who is the most powerful. He is the one who has the most power, and he is the one who is the most powerful.
