Going The Distance English Edition:

Going the Distance Ron Harris, 2020-02-11 Long distance oceanic and overland trade along the Eurasian landmass in the 1400s was largely dominated by Chinese Indian and Arabic traders and predominantly conducted over short trajectories by sole traders or organized around small scale enterprises Yet within two centuries of Europeans arrival in the Indian Ocean in 1498 long distance trade throughout Eurasia was mainly taken over by them By 1700 they had formed new large scale and impersonal organizations primarily a joint stock business corporation between English East India Company EIC and Dutch East India Company VOC This allowed them to transform trade from an enterprise dominated by many small traders moving goods over short segments to a vertically integrated firm that was able to control goods from their origin to the end consumers This rise of the business corporation proved essential for the economic rise of Europe Why did the corporation arise indigenously only in Europe and given its effective organization of long distance trade why wasn't it mimicked by other Eurasian civilizations for 300 years Harris closely examines the role played by forms of organization in the transformation of Eurasian trade between 1400 and 1700 comparing the organizational forms that were used in four major civilizations Chinese Indian Middle Eastern and Western European Through this comparative perspective he argues that the organizational design of the EIC and VOC the first long lasting joint stock corporations enabled large scale multilateral impersonal cooperation for the first time in human history He also argues that this new organizational form enabled the English and Dutch to deploy more capital more ships more voyages and more agents than other organizational forms

Going the Distance Michael Joyce, 2013-10-01 His major league baseball dreams dashed a former pitcher returns home to make a life or death family decision *I Will Go the Distance* Jacob J. Akol, 2005 **Olympic Collision** Kyle Keiderling, 2016-11 It remains one of the most memorable moments in modern Olympic history At the 1984 summer games in Los Angeles a raucous crowd of ninety thousand saw their favorite in the women's 3 000 meter race Mary Decker go down An audience of two billion around the world witnessed the mishap and listened to the instantaneous accusations against the suspected culprit Zola Budd Just seventeen the South African Budd had already been the target of a vicious and vocal campaign by the antiapartheid lobby after she transferred to the British team in order to compete at the games Decker at twenty six was America's golden girl ready to overcome years of bad luck and injuries to rightfully take the Olympic gold for which she had waited so long With three laps to go Decker and Budd's feet became tangled Decker went down and didn't get up wailing in primal agony as her gold medal hopes vanished Decker's stumbles continued in the race's aftermath when she refused Budd's apology and race officials found her not Budd at fault for the collision Although both women found success after the Olympics neither could escape the long shadow of the infamous event that forever changed both of their lives and defines them in popular culture to this day Olympic Collision follows Decker and Budd through their lives and careers telling the story behind the controversy the account that emerges is certain to revise the view Americans in particular have held

since that fateful day in Los Angeles more than thirty years ago Olympic Collision relives one of the most famous incidents in Olympic history its legacy and what has happened to both athletes since
