

2018 TRAINING INDUSTRY REPORT

ABOUT THIS STUDY

Now in its 37th year, The Industry Report is recognized as the training industry's most trusted source of data on budgets, staffing, and programs. This year, the study was conducted by an outside research firm May-July 2018, when members from the Training magazine database were e-mailed an invitation to participate in an online survey. Only U.S.-based corporations and educational institutions with 100 or more employees were included in the analysis.

The data represents a cross-section of industries and company sizes.

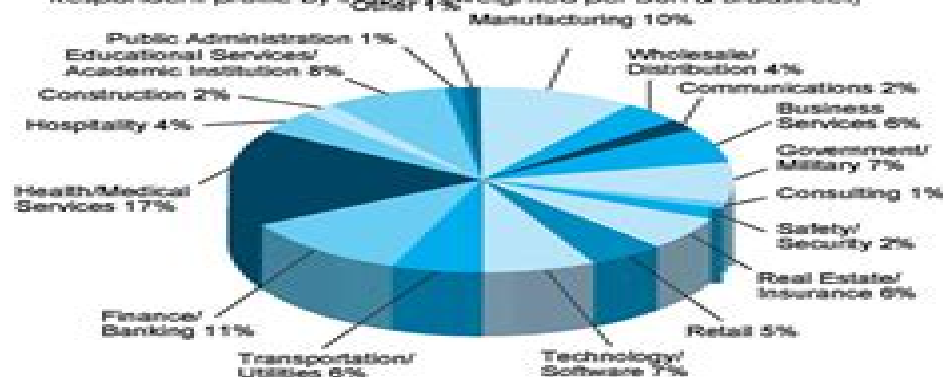

SURVEY RESPONDENTS

Small companies (100-999 employees)	36%
Midsize (1,000-9,999 employees)	41%
Large (10,000 or more employees)	23%
Total respondents	271

Note that the figures in this report are weighted by company size and industry according to a Dun & Bradstreet database available through Hoovers of U.S. companies. Since small companies dominate the U.S. market, in terms of sheer numbers, these organizations receive a heavier weighting, so that the data accurately reflects the U.S. market.

How to Write a Statement of Work Peter S. Cole
CPCM, Peter S. Cole, 2012-04 The standard on government statements of work just got better How to Write a Statement of

Work has been a standard reference for government employees and contractors for many years. Now with this sixth edition it is even more relevant and useful. Based on the excellent foundation laid by the late Peter Cole, Michael Martin has updated and added material to guarantee this handbook's place in the list of must-haves for working with government contracts. As in the earlier editions, the emphasis is on providing practical, detailed guidance on writing and preparing a description of government requirements, whether a statement of work (SOW), a performance work statement (PWS), or a statement of objectives (SOO). Among the many additions to this sixth edition are updates to reflect the current definition of an SOO, as well as references and guidance regarding the development and application of the SOO. There is a new chapter on why change management is so important on projects, legal precedents supporting change management, and how to identify when a change occurs using the SOW. This new chapter also includes information on the federal government's Standard Form 30 (SF30) to provide perspective on how change orders are used and applied in the federal government. If you are working in government contracting in any capacity, you should have this book on hand.
