walls You can't just graduate and leave formal education and expect yourself to be financially well equipped Many people think that having a good education is sufficient to the roads to acquire new wealth well they can't be any more wrong It is having the mindset of the wealthy that will make you rich That is why many lotto winners who becomes instant millionaires loses most of their money because they don't have the proper mindset to maintain or grow their money You'll discover why some of your money beliefs might be wrong and that could be holding you back you need to consider what are the principles and what behaviors the rich have that you do not have Laura Maya takes this idea and breaks it into sixteen chapters You wouldn't find a recipe to turn rich overnight Rather the book provides a solid foundation for setting the psychological stage for strong financial habits Studying hard getting nice grades and getting a job is not enough to be rich That's one lie which we have been fed with since our childhood There is a difference between scholastic professional and financial education The book further analyzes the root cause of why you are not rich It all boils down to your education You were never taught about how to be rich at school Forget that you never even learned personal finance or how to handle money It further touches upon how you can get smart with personal finance Perhaps the biggest argument Laura makes is the fact that everything can change if you change your mindset Buying that expensive dress impulsive buying etc are all signs of a poor mentality If you make changes to your lifestyle and spending habits today you will reap the benefits tomorrow On making money Laura's approach is simple she emphasizes on investing spend less and plan for a long term This isn't something new We have all heard it But we never implement it Laura gives real life examples of how you can start your journey to being rich by investing for a long term planning your finances and by staying on a budget Last but not the least she focuses on self investment by developing your mental financial and emotional intelligence To sum up Laura has come up with a book that truly focuses on the core problem today financial planning and money making is simply not taught at schools The book truly provides a step by step guide to change your thinking about money set realistic goals and embark a journey towards riches **Condition**

Hemphill,2020-09-01 In today's world much unlike the world of long ago before the 1980s where women probably and seemingly didn't play as many games and didn't scheme as much as the women of today one can clearly see witness and attest to the ever present and overwhelming amount of game playing and scheming ways of most of the females we know know of see and interact with on a day to day basis Most every man at one point or some point in his life has fallen victim to a game or scheme of a female whom he has either tried to get with or hook up with and many guys get hit with games and schemes even with those that they are married to or in relationships with Practically no man is exempt We all at some point will find ourselves faced with a woman whose sole purpose is to either go for what's in our pockets or bank accounts or to try to get us to do something for them for free or to get us to buy them stuff without them appreciating it and then turning around and buying us stuff too as well That's a big part of the world we live in as far as men interacting with women and the sole purpose of this book is to at least get guys to recognize when they are being played and to not fall for the simple games that women play twenty four hours a day
