band Galaxie 500 who has also taught at Harvard Damon Krukowski has watched cultural life lurch from analog to digital And as an artist who has weathered that transition he has challenging urgent questions for both creators and consumers about what we have thrown away in the process Are our devices leaving us lost in our own headspace even as they pinpoint our location Does the long reach of digital communication come at the sacrifice of our ability to gauge social distance Does streaming media discourage us from listening closely Are we hearing each other fully in this new environment Rather than simply rejecting the digital disruption of cultural life Krukowski uses the sound engineer's distinction of signal and noise to reexamine what we have lost as a technological culture looking carefully at what was valuable in the analog realm so we can hold on to it Taking a set of experiences from the production and consumption of music that have changed since the analog era the disorientation of headphones flattening of the voice silence of media loudness of mastering and manipulation of time as a basis for a broader exploration of contemporary culture Krukowski gives us a brilliant meditation and guide to keeping our heads amid the digital flux Think of it as plugging in without tuning out This is not a book about why vinyl sounds better it's way more interesting than that It is full of things I didn't know like why people yell into cellphones Ultimately it's about how we consume sound as a society which is increasingly on an individual basis NPR If you're a devoted music fan who's dubious about both rosy nostalgia and futuristic utopianism Damon Krukowski's *The New Analog* is for you The New York Times Book Review
