A University Education David Willetts, 2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nation wide competition which means English universities have an exceptional influence on schools a striking theme of the book This important book first investigates the university as an institution and then tracks the individual on their journey to and through university In A University Education David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework

politics and cultural identities re inscribe internal boundaries and borders that are both virtual and real Moreover economic protectionism racial discourses and xenophobic narratives driven by advances in technology reinforce the territorial dimensions of borders These case studies contribute to the literature challenging the notion that territorial borders are sufficient for understanding how borders function in BC and in a few instances they illustrate the nuanced ways in which borders or bordering processes are becoming detached from territory The chapters in this book were originally published as a special issue of the Journal of Borderlands Studies

Rule Britannia Danny Dorling, 2019-01-15 Things fall apart when empires crumble This time we think things will be different They are not This time we are told we will become great again We will not In this new edition of the hugely successful Rule Britannia Danny Dorling and Sally Tomlinson argue that the vote to leave the EU was the last gasp of the old empire working its way out of the British psyche Fuelled by a misplaced nostalgia the result was driven by a lack of knowledge of Britain's imperial history by a profound anxiety about Britain's status today and by a deeply unrealistic vision of our future
