Grade 12 Business Study 2014 December Paper:

Mobile Broadband Communications for Public Safety Ramon Ferrús, Oriol Sallent, 2015-08-07 This book provides a timely and comprehensive overview of the introduction of LTE technology for PPDR communications. It describes the operational scenarios and emerging multimedia and data centric applications in demand and discusses the main technological drivers that are believed to be pivotal for an efficient and cost effective delivery of mobile broadband PPDR communications. The capabilities and features of the LTE standard for improved support of mission critical communications e.g. proximity services, group communications are covered in detail. Also different network implementation options to deliver mobile broadband PPDR communications services over dedicated or commercial LTE based networks are discussed including the applicability of the Mobile Virtual Network Operator (MVNO) model and other hybrid models. Radio spectrum matters are also discussed in depth, outlining spectrum needs and providing an outlook into allocated and candidate spectrum bands for PPDR communications and suitable dynamic spectrum sharing solutions in PPDR communications. Explanations are accompanied by a vast collection of references that allow the more intrigued reader to gain further insight into the addressed topics. *Minerals Yearbook*, 2014 *Composing Research, Communicating Results* Kurt Lindemann, 2017-06-26

Composing Research: Communicating Results Writing the Communication Research Paper provides communication students with the knowledge and necessary tools to compose a variety of course required papers that are scholarly accessible and well written. The first work of its kind to take students from brainstorming to outlining to sentence and paragraph construction to paper presentation drawing on student written examples. Easy to understand explanations of passive voice point of view commonly accepted citation styles and more with current and relatable student written examples. Covers common writing assignments in communication and related courses including the literature review application paper and empirical research paper. Four pedagogical features enhance comprehension and support learning: Write Away quick exercises, integratable Building Blocks assignments, Engaging Ethics tips and Student Spotlight examples. *Assessing Academic Literacy in a Multilingual Society* Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy. The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages. Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools. The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully. The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience. *SME Mineral Processing and Extractive Metallurgy Handbook* Courtney A.

Young, 2019-02-01 This landmark publication distills the body of knowledge that characterizes mineral processing and extractive metallurgy as disciplinary fields. It will inspire and inform current and future generations of minerals and metallurgy professionals. Mineral processing and extractive metallurgy are atypical disciplines requiring a combination of knowledge, experience, and art. Investing in this trove of valuable information is a must for all those involved in the industry: students, engineers, mill managers, and operators. More than 192 internationally recognized experts have contributed to the handbook's 128 thought-provoking chapters that examine nearly every aspect of mineral processing and extractive metallurgy. This inclusive reference addresses the magnitude of traditional industry topics and also addresses the new technologies and important cultural and social issues that are important today.

Contents: Mineral Characterization and Analysis, Management and Reporting, Comminution, Classification and Washing, Transport and Storage, Physical Separations, Flotation, Solid and Liquid Separation, Disposal, Hydrometallurgy, Pyrometallurgy, Processing of Selected Metals, Minerals and Materials.

Minerals Yearbook Geological Survey, Interior Department, Mines Bureau, 2019-01-31 This volume covering metals and minerals contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information, plus a statistical summary.

Rare Earth Frontiers Julie M. Klinger, 2018-01-15 *Rare Earth Frontiers* is a work of human geography that serves to demystify the powerful elements that make possible the miniaturization of electronics, green energy, and medical technologies, and essential telecommunications and defense systems. Julie Michelle Klinger draws attention to the fact that the rare earths we rely on most are as common as copper or lead, and this means the implications of their extraction are global. Klinger excavates the rich historical origins and ongoing ramifications of the quest to mine rare earths in ever more impossible places. Klinger writes about the devastating damage to lives and the environment caused by the exploitation of rare earths. She demonstrates in human terms how scarcity myths have been conscripted into diverse geopolitical campaigns that use rare earth mining as a pretext to capture spaces that have historically fallen beyond the grasp of centralized power. These include legally and logistically forbidding locations in the Amazon, Greenland, and Afghanistan, and on the Moon. Drawing on ethnographic archival and interview data gathered in local languages and offering possible solutions to the problems it documents, this book examines the production of the rare earth frontier as a place, a concept, and a zone of contestation, sacrifice, and transformation.

Distracted James M. Lang, 2020-10-20 Keeping students focused can be difficult in a world filled with distractions, which is why a renowned educator created a scientific solution to one of every teacher's biggest problems: Why is it so hard to get students to pay attention? Conventional wisdom blames iPhones, insisting that access to technology has ruined students' ability to focus. The logical response is to ban electronics in class. But acclaimed educator James M. Lang argues that this solution obscures a deeper problem: how we teach is often at odds with how students learn. Classrooms are designed to force students into long periods of intense focus, but emerging science reveals that the

brain is wired for distraction We learn best when able to actively seek and synthesize new information In *Distracted* Lang rethinks the practice of teaching revealing how educators can structure their classrooms less as distraction free zones and more as environments where they can actively cultivate their students attention Brimming with ideas and grounded in new research *Distracted* offers an innovative plan for the most important lesson of all how to learn

The Boy Crisis Warren Farrell, John Gray, 2018-03-13 What is the boy crisis It s a crisis of education Worldwide boys are 50 percent less likely than girls to meet basic proficiency in reading math and science It s a crisis of mental health ADHD is on the rise And as boys become young men their suicide rates go from equal to girls to six times that of young women It s a crisis of fathering Boys are growing up with less involved fathers and are more likely to drop out of school drink do drugs become delinquent and end up in prison It s a crisis of purpose Boys old sense of purpose being a warrior a leader or a sole breadwinner are fading Many bright boys are experiencing a purpose void feeling alienated withdrawn and addicted to immediate gratification So what is *The Boy Crisis* A comprehensive blueprint for what parents teachers and policymakers can do to help our sons become happier healthier men and fathers and leaders worthy of our respect

Sandeep Purwar, Founder CEO Bevov **Handbook on Global Value Chains** Stefano Ponte, 2019

Global value chains (GVCs) are a key feature of the global economy in the 21st century. They show how international investment and trade create cross-border production networks that link countries, firms, and workers around the globe. This Handbook describes how GVCs arise and vary across industries and countries and how they have evolved over time in response to economic and political forces. With chapters written by leading interdisciplinary scholars, the Handbook unpacks the key concepts of GVC governance and upgrading and explores policy implications for advanced and developing economies alike.

The 10-Second Commute Terri R. Kurtzberg, Mason Ameri, 2022-10-18

Virtual work, which was steadily on the rise even before the pandemic, is explored in this timely book that describes the impact of technology on our work experiences, ranging from the individual psychological level to the broad societal implications. Widespread remote work is now possible, but it comes with its share of frustrations. Virtual work has changed our lives in ways big and small, from trying to balance our time to what we wear and where we sit and from how we communicate to where we should look during a videoconference. It's also fundamentally changed what kinds of jobs we can now do. Grounded in research and including lively personal anecdotes, *The 10 Second Commute* provides a thoughtful and comprehensive scan of the nature of virtual work. The authors, both researchers in management and technology, explore the current questions of our virtual lives, such as: Why Zoom instead of Skype? Why are emojis so useful? Why is videoconferencing so exhausting? How does diversity at work both help and hinder productivity? Virtual work is more than just work; it permeates our whole lives, and it will continue to do so as hybrid work arrangements become the new normal. Helping readers better understand the virtual work experience, this book will engage and inform everyone who is still trying to make it work.

Sick Schools David V. Anderson, 2020-01-10

Who's afraid of for-profit education? Those who work in non-profit or government-owned and operated schools. Many parents and other stakeholders have been made fearful by this education establishment. What's more important to humans: nutrition or education? Nutrition is more important because it is the prerequisite for other human activities, including education. What organizations provide food, and who pays for the food? Food is provided by for-profit farmers, for-profit processors, for-profit wholesalers, and for-profit retailers. Most food is purchased with the consumers'

own money but a significant amount is purchased by low income individuals using food stamps Why can t education be provided similarly using education stamps We trust for profit enterprises to provide our food Why can t we trust for profit enterprises to provide K 12 education Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for profit K 12 education sector would please and amaze its customers
