At least three Program Committee (PC) members reviewed each submitted paper, while submissions co-authored by a PC member were submitted to the more stringent evaluation of five PC members. In addition to the PC members, many external reviewers joined the review process in their particular areas of expertise. We were fortunate to have this energetic team of experts and are deeply grateful to all of them for their hard work, which included a very active discussion phase almost as long as the initial individual reviewing period. The paper submission review and discussion processes were effectively and efficiently made possible by the Web-based system iChair.
