

Nursing Home Report Card

This fact sheet answers many of the questions you may have about the Minnesota Nursing Home Report Card. The report card includes information about the 368 nursing homes in the state that are certified to participate in the Medical Assistance (MA) Program.

You can find the report card at:
nhreportcard.dhs.mn.gov

Background and purpose of the report card

What is the purpose of the nursing home report card?

The Minnesota Department of Health (MDH) and the Minnesota Department of Human Services (DHS), collaborating with the University of Minnesota, created the nursing home report card to help you compare facilities on the following seven quality measures:

1. Resident satisfaction and quality of life
2. Quality indicators – clinical quality
3. Hours of direct care
4. Staff retention
5. Use of temporary nursing staff
6. Proportion of beds in single bedrooms
7. State inspection results

In October 2012 these agencies introduced a new and improved Report Card.

New features include:

- An exciting new look
- Bubbles that explain technical terms that open when the user moves their mouse over those terms

- Ability to select facilities by looking at a map of the state
- Side-by-side facility displays
- Print or download an Excel file for any page
- Over two years of performance history shown for each facility
- More detailed information easily available showing the exact scores that underlie the star ratings
- Detailed tables showing Quality of Life and clinical Quality Indicators results
- Links from facility report cards to Google maps showing their locations
- Tables showing daily cost information for each facility, including private pay charges for private rooms

Please click the **Questions** and **Feedback** links at the top of each page to ask questions or offer suggestions about enhancements to the report card.

Each nursing home can receive from one to five stars on each measure. You can view lists of facilities in the area of the state in which you are seeking a home. You can also sort your facility list by what quality measure(s) are most important to you. When the results appear, you can obtain more information about how each nursing home scored.

The Minnesota nursing home report card is state of the art. It uses multiple measures of quality, incorporates sophisticated risk adjustments to compare facilities fairly, and
