Let's Write John Foster,2014-01-21 Let s Write offers a wealth of suggestions for

approaches to developing primary school pupils writing skills that will capture the children's interest while enabling them to improve their ability to express themselves in writing. It aims to meet the requirements of the new national curriculum for English at KS2 in a way that will develop the children's standard of writing by presenting activities that they will find enjoyable and stimulating. Throughout the book the emphasis is on providing activities that will engage the pupils in a discussion of how texts are structured before producing their own writing. John Foster suggests a range of imaginative tasks that both literacy specialists and non specialists will find useful in developing children's ability to write coherently and correctly. Let's Write includes a clear explanation of the writing process with activities designed to improve pupils' drafting skills, examples of the different types of writing for pupils to analyse which they can use as models for their own writing, a range of imaginative ideas for writing tasks together with suggestions of curriculum opportunities for practising particular forms, writing challenges which can be used to stretch more able writers and thus to introduce differentiation by task as well as by outcome, writing tips for example on sentence structure and paragraph structure appropriate to the different types of writing activities involving pupils in the assessment of their writing, a section on writing correctly focussing on grammar, spelling and punctuation, a section containing games and activities designed to extend pupils' vocabulary. Let's Write provides teachers with a lively collection of resources that will be welcomed by teachers and that will help to develop children's writing.

Teaching in Nursing E-Book Diane M. Billings, Judith A. Halstead, 2013-08-13 Teaching in Nursing 4th Edition is the only nursing text to address all three components of education: teaching, curriculum, and evaluation. Comprehensive guidelines help you meet the day-to-day challenges of teaching, including curriculum development, the diversity of student learning styles, and developing and using classroom tests. This edition has been updated with information on the latest trends in education, including new information on the use of simulations to facilitate learning, the latest on competency-based and concept-focused curricula, developing learner-centered courses, and more. Edited by expert nursing educators Diane M. Billings and Judith A. Halstead, Teaching in Nursing is a past winner of the AJN Book of the Year award and is an excellent resource for nurses preparing to take the Certified Nurse Educator (CNE) Exam. The only nursing resource to cover teaching, curriculum, and evaluation of students, the three essential components of nursing education. Contributing authors are nationally recognized scholars in their fields of expertise. Models of teaching are used to demonstrate clinical teaching, teaching in interdisciplinary settings, how to evaluate students in the clinical setting, and how to adapt teaching for community-based practice. Teaching strategies promote critical thinking and active learning, including evaluation techniques, lesson planning, and constructing examinations. Evidence-based teaching boxes explain how to practice and apply evidence-based teaching with implications for faculty development, administration, and the institution. End-of-chapter summaries let you draw conclusions based on the chapter content. Open-ended application questions at the end of each chapter are ideal for

faculty guided discussion and online education Up to date research looks ahead to the needs of the future
