---

1. In the lab activity Making Connections, an experiment was designed to test the effect of exercise on the ability to operate a clothespin. The number of times the clothespin was opened served as the  
A) independent variable  
B) dependent variable  
C) hypothesis  
D) control
2. During a laboratory activity, students ran in place for three minutes. Students then complained of muscle fatigue in their legs. State one biological reason why the students experienced muscle fatigue after exercising.

Base your answers to questions 3 through 5 on the information below and on your knowledge of biology.

### Respiratory Rates

A student completed a lab activity that demonstrated the connection between pulse rate, heart rate, and flow of blood during exercise. She left her class wondering if there is a connection between breathing rate and exercise. With the help of her track coach, she conducted an investigation to try and find an answer to her question.

In the investigation, the respiratory rates of thirty athletes were measured before any exercise. To measure their rate, they counted the number of times they took a breath in one minute. Then, they ran one lap around the track, and their respiratory rates were determined again. Finally they ran two laps around the track and checked their respiratory rates one last time. All of their data were recorded, and the averages were calculated. The data table shows the information obtained in this investigation.

The Effect of Exercise on the Respiratory Rates of Thirty Athletes

Type of Activity	Average Respiratory Rates (breaths per minute)
At rest	10
After one lap	20
After two laps	30

3. When determining the respiratory rates of the students at rest, the student found that the rates ranged from 10 to 20 breaths per minute. State one reasonable why students would have a range of respiratory rates.
  4. State one likely hypothesis that the student was testing in this investigation.
  5. During the activity, what was the purpose of finding the respiratory rates of the students at rest?  
A) to determine if the students were healthy  
B) to practice using the timer  
C) to use as a comparison  
D) to use as the variable
