ABSTRACT:

Financial Newspaper is a product which is required by all the stakeholders who deals in the financial market. Delay in the distribution can cause many problems to the readership figures. It is a product which loses its value as day goes on. It is a product without which a day cannot be started for this specific crowd.

Most of the financial daily newspapers are published from Monday to Friday. It covers most of the sector and industry news in 10 to 12 pages. It also covers few pages of very important news and tips regarding stock markets which are very much helpful to the investors and stock brokers.

A company needs to know the behaviour of their consumers to know what they think about the product or service which they are offering. The study has been done to understand the consumer behaviour on financial dailies. The comparison has been done between various financial newspapers. There was comparison done on the basis of the time of reading the newspaper by the readers and various features the readers wanted in a particular paper. The survey has been done on the basis of various parameters by comparing the features of various newspapers.

Novel Approaches to Organizational Project Management Research Nathalie Drouin,Ralf Müller,Shankar Sankaran,2013 Project management PM traditionally employed to implement projects has developed into Organizational Project Management as organizations are increasingly using projects to deliver strategies The emergence of program and portfolio management has also contributed to this move PM researchers need to become more innovative in their research approaches They need to connect with the broader currents of social science in relevant fields such as

organization theory Outside the specific field there is a great deal that can usefully be imported transformed and translated so that it is fit for project management research purposes More trans disciplinary translational and transformational approaches for conducting project related research are required and this book goes a long way to providing foundations for them The book encompasses reflections on fundamental questions underlying any research such as the type of knowledge sought as well as the epistemological and ontological assumptions It broadens research methods and theory perspectives drawing on contemporary approaches such as action research soft systems methodology activity theory actor network theory and other approaches adopted in related scientific and technological areas that are only recently being adopted To achieve this the book s editors have necessarily been eclectically interdisciplinary in their contributor list They have included contemporary research methods and designs from areas allied to project research such as organization science organizational studies sociology behavioral science and biology providing innovative invitations to research design and methodological choice Overall this book makes a significant contribution to the maturation and development of project management research as a specialty in the broader social sciences one that is a less reliant handmaiden or under laborer to purely technical issues but which appreciates that any material construction is always a social construction as well one that implies episteme and phronesis knowledge and wisdom as well as techne or technique Project managers may not realize it but the most important aspects of what they manage are the meanings interpretations and politics of projects and not merely the technical aspects Series Advances in Organization Studies Vol 29 Subject Project Management Business Administration Organizational Studies **Critical Management Studies at Work** Julie Wolfram Cox,Tony G. LeTrent-Jones,Maxim Voronov,David Weir,2009-01-01 This is an excellent text It covers an impressive range of salient topics Moreover it provides a nuanced considered and balanced treatment of both conceptual and practical aspects of critical management studies Cliff Oswick Queen Mary University of London UK This book is the first of its kind to reflect on what it means to actually perform critical management studies CMS how consultants researchers teachers and managers negotiate the tensions they experience in their everyday practice Critical management studies seeks to expose the hidden workings of power as well as to identify and reform the mundane and frequently unnoticed practices that privilege some groups and individuals at the expense of others creating injustices in organizations and in the society at large The authors show how CMS draws on a variety of approaches to translate its insights into practice Combining rich theoretical and empirical contributions with reflections on CMS practice in various forms this unique book is essential reading for critical researchers educators and graduate students in business and management fields **Handbook of Management Accounting Research** Christopher S. Chapman,Anthony G. Hopwood,Michael D. Shields,2006-12-08 Volume one of the Handbooks of Management Accounting Research sets the context for both Handbooks with three chapters outlining the historical development of management accounting as a discipline and as a practice in three broad geographic settings The bulk of the first volume then draws

together a series of contributions that analyse the scholarly literature in terms of distinct intellectual and theoretical social science perspectives The volume includes a chapter which looks at work informed by psychology as a base discipline The volume also includes a set of chapters that seek to evaluate and explain issues of research method for the different approaches to research found within management accounting Special pricing available if purchased as a set with Volume 2 Documents the scholarly management accounting literature Publishing both in print and online through Science Direct International in scope
