

THE ILO MARITIME LABOUR CONVENTION, 2006

GUIDANCE FOR SHIP OPERATORS ON PORT STATE CONTROL AS FROM 20 AUGUST 2013

INTRODUCTION

The International Shipping Federation (ISF) is the identity used by the International Chamber of Shipping (ICS) when acting as the international employers' organisation for ship operators. ISF co-ordinates the representation of shipowners at the International Labour Organisation (ILO) in the development of maritime labour standards.

As an official social partner under the tripartite ILO process, ISF was instrumental for negotiating the text of the ILO MLC with governments and seafarers' trade unions. ISF therefore has a very special interest in wanting to ensure the Convention's smooth implementation.

The membership of ISF and ICS comprises national shipowners' associations from 36 nations representing 92% of the world merchant fleet.

While this advice given in this guide has been developed using the best information currently available, it is nevertheless, as guidance, to be used at the user's best risk. Its responsibility is accepted by Maritime International Secretariat Services Limited or by the International Chamber of Shipping Limited or by any person, firm, corporation or organisation which has been at any time concerned with the furnishing of information or doing the compilation, production or any translation, copying or use of this guide. For the accuracy of any information or advice given hereby or for any consequent benefits or losses any consequent whatsoever resulting directly or indirectly from compliance with or adoption of guidance contained herein, none of us shall be liable to provide indemnity.

On 20 August 2013, the ILO Maritime Labour Convention (MLC) will enter into force and ship operators will need to be ready.

At the 2006 Diplomatic Conference which adopted the MLC, ILO also adopted a Resolution which recommends that Port State Control (PSC) should not commence until 12 months after entry into force, i.e. August 2014. However, some port states, if they have ratified the MLC, may still decide to subject ships to PSC inspections to check compliance with the MLC from 20 August 2013.*

The following advice is intended to help ship operators avoid potential PSC problems.

The ILO MLC addresses a wide range of matters including shipping companies' obligations regarding seafarers' contractual arrangements, oversight of manning agencies, working hours, health and safety, crew accommodation, catering standards, and seafarers' welfare.

Provided that they put in the effort, the vast majority of companies should not have any difficulty complying with the substance of the Convention, which in large part is derived from existing ILO maritime standards and accepted good employment practice.

However, the enforcement mechanism is new. Shipping companies therefore must get to grips with the certification process in order to avoid port state control problems, and take appropriate measures in the event that flag states have not issued required documentation or guidance.

* Any remaining States, in conformity with article 19 thereof, are required to implement and ratify, according to their 20 August 2013, or failing this, must make PSC inspection of their registered vessels (by member States, even if the port state has not ratified the MLC).
