power tools also regard as potentially harmful fuel lubricants solvents and sealers which should always be and kept in labelled sealed containers With care and common sense the practical owner can make an excellent job of maintenance and overhaul The benefits include money saved and the satisfaction of work well done You will be adding to your knowledge too knowing more about the vehicle you own will help you to make logical decisions about what needs to be done even if it does in some instances have to go into a professional repair shop The Volkswagen Transporter T4 is a vehicle that will respond to careful regular servicing and is built to a standard that will ensure a long life if this is remembered Certain Agricultural Vehicles and Components, Inv. 337-TA-487 , Designing for the Disabled: The New Paradigm Selwyn

Goldsmith,2012-09-10 Selwyn Goldsmith s Designing for the Disabled has since it was first published in 1963 been a bible for practising architects around the world Now as a new book with a radical new vision comes his Designing for the Disabled The New Paradigm Goldsmith s new paradigm is based on the concept of architectural disability As a version of the social model of disability it is not exclusively the property of physically disabled people Others who are afflicted by it include women since men customarily get proportionately four times as many amenities in public toilets as women and women have to queue where men do not and those with infants in pushchairs because normal WC facilities are invariably too small to get a pushchair and infant into To counter architectural disability Goldsmith s line is that the axiom for legislation action has to be access for everyone it should not just be access for the disabled as it presently is with the Part M building regulation and relevant provisions of the 1995 Disability Discrimination Act In a 40 page annex to his book he sets out the terms that a new style Part M regulation and its Approved Document might take one that would cover alterations to existing buildings as well as new buildings But architects and building control officers need not he says wait for new a legislation to apply new practical procedures to meet the requirements of the current Part M regulation they can as he advises act positively now This is a book which will oblige architects to rethink the methodology of designing for the disabled It is a book that no practising architect building control officer local planning officer or access officer can afford to be without The European Garden
