Copenhagen in 1936 Besides considering the interactions of these groups the book also pays special attention to their interactions in the context of the Cold War period following the Second World War with the so called Third Vienna Circle and with the Forum Alpbach Austrian College around Viktor Kraft and Bela Juhos along with Ludwig Wittgenstein and Paul Feyerabend where the issues of philosophical and scientific realism and psychologism the relationship between psychology and philosophy were matters of controversy By comparison with the more extensively investigated and better known transatlantic transfer and transformation of positivism and logical empiricism the developments outlined above remain neglected and marginalized topics in historiography The symposium aims to reveal the remarkable continuity of the philosophical enlightened Nordic Connection We intend to shed light on this forgotten communication and to reconstruct these hidden scholarly networks from an historical and logical point of view thereby evaluating their significance for today s research
