Modern Luck Robert S. C. Gordon, 2023-01-16 Beliefs superstitions and tales about luck are present across all human cultures according to anthropologists We are perennially fascinated by luck and by its association with happiness and danger uncertainty and aspiration Yet it remains an elusive ungraspable idea one that slips and slides over time all cultures reimagine what luck is and how to tame it at different stages in their history and the modernity of the long twentieth century is no exception to the rule Apparently overshadowed by more conceptually tight scientific and characteristically modern notions such as chance contingency probability or randomness luck nevertheless persists in all its messiness and vitality used in our everyday language and the subject of studies by everyone from philosophers to psychologists economists to self help gurus Modern Luck sets out to explore the enigma of luck's presence in modernity examining the hybrid forms it has taken on in the modern imagination and in particular in the field of modern stories Indeed it argues that modern luck is constituted through narrative through modern luck stories Analysing a rich and unusually eclectic range of narrative taken from literature film music television and theatre from Dostoevsky to Philip K Dick from Pinocchio to Cimino from Curtiz to Kie

Advantage in the Middle East Shirzad Azad,2021-05-07 The modern trajectory of Middle Eastern East Asian interactions has garnered very little scholarly attention and scrutiny The two way connection between both regions have witnessed a litany of activities and developments over the past several decades but such dynamics are yet to be investigated sufficiently in tandem with their overall impacts on the world s safety and well being Aiming to fill part of this acute research gap East Asia s Strategic Advantage in the Middle East concentrates primarily on different aspects of East Asia s modern relationship with the Middle East by turning the spotlight on strategic advantages of East Asian countries in critical areas in the region Over the past several years there have been a slew of talks and debates about the formation of strategic ties between the East Asian states and their counterparts across the Middle East region However East Asia s advantage of strategic nature has been there for decades shaping the contours of an increasingly multifaceted chain of interactions involving the two sides The more other stakeholders Western powers in particular made serious attempts to secure their precious assets in the Middle East the larger East Asia s strategic advantage in the region grew California. Sentient Strategy Alan Weiss,2023-03-23 No pre pandemic strategy is effective anymore None Not for organizations large or small for profit or non profit domestic or global Claims of a return to normal or the new normal are ridiculous What we re facing is really a new reality and that reality is the need for agile strategic decisions and pragmatic views of the future That means that strategy formulation can be reduced to a few days and the view of the future can only be 12 18 months This is the antithesis of Peter Drucker s approach to strategy but his highly effective approach was developed at GM three quarters of a century ago It s time to move on Alan Weiss has developed an original and completely new approach to strategy which thus far has certified over 100 people globally delivering this approach to scores of firms of all types in four countries More than two dozen firms are using this approach Sentient Strategy is based on two modern dimensions awareness of the environment in which the organization exists and has influence and consciousness of the impact of actions being considered The old SWOT strengths weaknesses opportunities threats approaches are currently equivalent to riding down the freeway on a horse We must drop the hubris that has led us to believe we can see years ahead and anticipate what s coming No one predicted the Internet No one predicted the latest pandemic It s time to turn volatility and disruption on their heads and use them as offensive weapons in the marketplace instead of trying to protect ourselves from them Imagine a strategy that an organization can formulate in just a day or so revisit easily and frequently and design a series of shorter term viable futures Sentient means perceptive and self aware It doesn t mean one size fits all from a cookie cutter firm s approach to strategy Alan Weiss equips the reader to consider using this approach independently These are new times a new reality a no normal™ hence it s ridiculous to use old approaches to strategy There s a clear reason why Sears didn t morph into Amazon and why Hertz surrendered its number one spot to Enterprise

(Hank) Utley, Scott Verner, 2015-09-18 Shortly after the independent Carolina League was formed in 1936 officials of the National Association of Professional Baseball which oversaw what was known as organized baseball including the major leagues began a campaign to destroy the league The NAPB declared the Carolina League outlaw and blacklisted its players because their teams were pirating professionally contracted ballplayers with the lure of higher wages small town hero worship and a career off season Backed into a corner the Carolina League wore its outlaw label with a defiant swagger challenging the all powerful monopoly of organized professional baseball and its standard player contract This complete history of the league reveals how it persevered through three tumultuous seasons fueled by the tight knit community spirit of North Carolina Piedmont textile towns Over its three seasons of existence the Carolina League attracted professional baseball players from all over the country and it gave the players control over their careers setting a standard that was resisted until free agency was adopted in 1973
