

## Human Rights

Human rights are there to protect all people - no matter who they are, where they are from or how they choose to live their life.

Read the human rights and see how it's working in our country to show how the human rights can be seen working in our country, for example, you might draw a picture of your family going on holiday for the human right 'freedom to move'.

Protected by the Law We all have a right to be treated fairly by the law.	
Private Space We all have a right to privacy. Nobody has the right to come into our home or bother us or our family without a good reason.	
Freedom of Movement We all have a right to go where we want in our own country and abroad on our own.	
Freedom of Thought We all have a right to believe in what we want, to have a religion or not, even if it's different to others.

Common Core Nicholas Tampio, 2018-03-01 How the Common Core standardizes our kids education and how it threatens our democracy The Common Core State Standards Initiative is one of the most controversial pieces of education policy to emerge in decades Detailing what and when K 12 students should be taught it has led to expensive reforms and displaced other valuable ways to educate children In this nuanced and provocative book Nicholas Tampio argues that though national standards can raise the education bar for some students the democratic costs outweigh the benefits To make his case Tampio describes the history philosophy content and controversy surrounding the Common Core standards for English language arts and math He also explains and critiques the Next Generation Science Standards the Advanced Placement US History curriculum framework and the National Sexuality Education Standards Though each set of standards has admirable elements Tampio asserts that democracies should disperse education authority rather than entrust one political or pedagogical faction to decide the country's entire philosophy of education Ultimately this lively and accessible book presents a compelling case that the greater threat to democratic education comes from centralized government control rather than from local education authorities
