

Fig. 10-5-2—Left-Hand Side View of John Deere 4020 Tractor
with Diesel Engine (Serial No. 10000 and After)

SERIAL NUMBERS

Each engine bears a serial number on the generator mounting pad on the front right side of the cylinder block.

The tractor serial number is located to the right of the center link attaching bracket on the rear of the transmission case.

LP-Gas fuel tanks each bear a serial number.

MODEL NUMBERS

Model numbers are carried by the distributor on spark ignition engines, the fuel injection pump on diesel engines, the main hydraulic pump, rockshaft valve housing, and remote cylinder selective control valve housings.

ENGINE

Three types of variable-speed engines are furnished for the tractor. Two are spark ignition engines — one using gasoline for fuel, the

other using LP-Gas. The third is a compression-ignition diesel engine.

All engines have six in-line cylinders. At 1200 rpm, 4020 engines develop up to 58 horsepower measured at the PTO, and 4010 engines up to 40 horsepower. (These are maximum observed horsepower ratings.)

CRANKCASE VENTILATING SYSTEM

Crankcase ventilation is accomplished by a liquid-seal, impeller-type ventilating pump.

CLUTCH

Both 4020 and 4010 Tractors, equipped with Synchro-Range transmissions, have spring-loaded dry-disk-type transmission clutches located in a recess at the rear of the engine flywheel. These clutches are operated by a pedal at the left side of the operator's platform.

Power Shift transmissions (optional equipment) on 4020 Tractors are hydraulically-actuated, having no spring-loaded transmission clutch.
