plan for readers to continue on their journey toward total wellness      *Pharmacology And Applications Of Chinese Materia Medica (Volume Ii)* Paul Pui-hay But,1987-07-01 This book is the second volume of a comprehensive 2 volume book covering modern pharmacological and clinical studies of the most commonly used Chinese herbal drugs It contains monographs of 127 kinds of the most commonly used Chinese Materia Medica The information on each herb was compiled by a research specialist active in the scientific investigation of that particular type of herb The description on each drug includes an introduction source character and taste actions and indications according to traditional Chinese medicine etc chemical composition pharmacology clinical studies adverse effects and references The translation of the book into English was done by qualified professionals in the field and the terms used are consistent with those used in Index Medicus Chemical Abstracts and Botanical journals      Handbook for Asian Studies Specialists Noriko Asato,2013-10-08 An indispensable tool for librarians who do reference or collection management this work is a pioneering offering of expertly selected print and electronic reference tools for East Asian Studies Chinese Japanese and Korean Handbook for Asian Studies Specialists A Guide to Research Materials and Collection Building Tools is the first work to cover reference works for the main Asian area languages of China Japan and Korea Several leading Asian Studies librarians have contributed their many decades of experience to create a resource that gathers major reference titles both print and online that would be useful to today's Asian Studies librarian Organized by language group it offers useful information on the many subscription based and open source electronic tools relevant to Asian Studies This book will serve as an essential resource for reference collections at academic libraries Previously published bibliographies on materials deal with China or Japan or Korea but none have coalesced information on all three countries into one work or are written in English And unlike the other resources available this work provides the insight needed for librarians to make informed collection management decisions and reference selections

**Planetary Herbology** Michael Tierra,2018-05-23 A major work integrating the herbal traditions of the East with those of the West by the bestselling author of *The Way of Herbs* This practical handbook and reference guide is a landmark publication in this field For unprecedented usefulness in practical applications the author provides a comprehensive listing of the more than 400 medicinal herbs available in the west classified according to their chemical constituents properties and actions indicated uses and suggested dosages      **Common Chinese Materia Medica** Huagu Ye,Chuyuan Li,Wencai Ye,Feiyan Zeng,2021-07-15 This second volume contains 231 species of 40 families of medicinal plants The most important family of which are Magnoliaceae such as *Magnolia officinalis* and *Magnolia officinalis* subsp *biloba* *Schisandra chinensis* of Schisandraceae *Cinnamomum aromaticum* of Lauraceae *Coptis chinensis* Franch *Coptis omeiensis* and *Coptis teeta* of Berberidaceae *Isatis indigotica* *Lepidium apetalum* and *Raphanus sativus* of Cruciferae *Rheum palmatum* *Rheum officinale* and *Rheum taguticum* of Polygonaceae etc In each specie it introduces the scientific names herbal medicine names characteristics habitats distributions Acquisition and processing methods medicinal traits tastes functions use and dosages

and other information of medicinal plants The color pictures of all species in their wild forms are presented along with some pictures of medicinal products made of them This book series has totally 10 volumes which covers 2000 kinds of Chinese medicines that are commonly seen or used These volumes not only introduce the efficacy function and some prescriptions of the medicines but also introduce the biological characteristics of them in detail with clear photos of the habitats so that readers can identify them in the field Apart from the growing environment the books expound the distribution areas and other information to facilitate researches and other applications The volumes are targeted at readers of general interests and it is also of high referential value for scientific researcher and teachers It can be used as a guide to researchers clinical doctors and students in the department of pharmaceutics and traditional Chinese medicine      *Pharmacology And Applications Of Chinese Materia Medica (Volume I)* Paul Pui-hay But, Hsion-mou Chang, 1986-07-01 This book is the first volume of a comprehensive 2 volume book covering modern pharmacological and clinical studies of the most commonly used Chinese herbal drugs It contains monographs of 250 kinds of the most commonly used Chinese Materia Medica The information on each herb was compiled by a research specialist active in the scientific investigation of that particular type of herb The description on each drug includes an introduction source character and taste actions and indications according to traditional Chinese medicine etc chemical composition pharmacology clinical studies adverse effects and references The translation of the book into English was done by qualified professionals in the field and the terms used are consistent with those used in Index Medicus Chemical Abstracts and Botanical journals      *Neuroscience and Art* Amy Ione, 2024-08-27 This book is focused on how understanding ourselves as humans is incomplete without considering both biological and cultural aspects Using the neurocultural perspective the book explores how everything in the world is filtered back and forth through the brain and culture The thrust of the book therefore is to explore the power of art in creating a bridge between cultural and neuroscientific lines of inquiry Looking at both clinical and non clinical populations the text examines historical foundations distinguishes congenital developmental conditions from those that are acquired and emphasizes how the brain constructs our sensory experiences Several distinctive features separate this research from other publications First the book opens with a review of how the historical literature is still etched into the ideas we employ to explain elements across the interdisciplinary fields of art aesthetics our sensory experience psychology cognition and well being Second the research adopts a humanistic rather than a philosophical or social science perspective in demonstrating the value of coupling anatomy and physiology with the natural and social environment In this artists from all genres are incorporated Among them are Iris Murdoch Ludwig van Beethoven Leonardo da Vinci Cristoforo de Predis Rembrandt Federico Fellini Chuck Close and David Hockney Case studies demonstrate how neuroscientific research meshes with art individual and cultural variables in ways that range from health and well being to physiological decline and biological traumas These include a case study that examines how Oliver Sacks combined biology and biography in his writings It also explores art projects in several genres inspired by his studies Another

case study is on the role of film as a useful clinical tool Here the book also demonstrates that cinematic devices used by filmmakers intersect with perceptual and cognitive neuroscience A defining feature of the analysis is the integration of research on brain injuries with humanistic responses in film literature and the visual arts This section outlines the lack of consensus regarding the causes and treatment of shell shock in World War I before introducing how research and art now work with PTSD TBI Finally the book examines therapeutic cases of professional and non professional artists concluding with a discussion of synesthesia and the senses
