Genocide Literature in Middle and Secondary Classrooms Sarah Donovan,2016-08-12 At the heart of this inquiry into the ethical implications of education reform on reading practices in middle and secondary classrooms the central question is what is lost hidden or marginalized in the name of progress Drawing on her own experiences as an English teacher during the No Child Left Behind era the author examines school cultures focused on meeting standards and measurable outcomes She shows how genocide literature illuminates the ethics of reading and helps teachers and students rethink how literature should be taught in this modern globalized era and the purposes of education more broadly The President's Kitchen Cabinet Adrian Miller,2017-02-09 An NAACP Image Award Finalist for Outstanding Literary Work Non Fiction James Beard

award winning author Adrian Miller vividly tells the stories of the African Americans who worked in the presidential food service as chefs personal cooks butlers stewards and servers for every First Family since George and Martha Washington Miller brings together the names and words of more than 150 black men and women who played remarkable roles in unforgettable events in the nation's history Daisy McAfee Bonner for example FDR's cook at his Warm Springs retreat described the president's final day on earth in 1945 when he was struck down just as his lunchtime cheese soufflé emerged from the oven Sorrowfully but with a cook's pride she recalled He never ate that soufflé but it never fell until the minute he died A treasury of information about cooking techniques and equipment the book includes twenty recipes for which black chefs were celebrated From Samuel Fraunces's onions done in the Brazilian way for George Washington to Zephyr Wright's popovers beloved by LBJ's family Miller highlights African Americans' contributions to our shared American foodways Surveying the labor of enslaved people during the antebellum period and the gradual opening of employment after Emancipation Miller highlights how food related work slowly became professionalized and the important part African Americans played in that process His chronicle of the daily table in the White House proclaims a fascinating new American story

Children, Young People and Critical Geopolitics Matthew C. Benwell, Peter Hopkins, 2017-05-15 Young people and in particular children have typically been marginalised in geopolitical research positioned as too young to understand or relate to the adult dominated world of international relations Integrating current debates in critical geopolitics and political geography with research in children's geographies childhood studies and youth research this book sets out an agenda for the field of children's and young people's critical geopolitics It considers diverse practices such as play activism media consumption and diplomacy to show how children's and young people's lives relate to wider regional and global geopolitical processes Engaging with contemporary concepts in human geography including ludic geopolitics affect emotional geographies intergenerationality creative diplomacy popular geopolitics and citizenship the authors draw on geopolitical research with children and young people from Europe Asia Australasia Africa and the Americas The chapters highlight the ways in which young people can be enrolled ignored dismissed empowered and represented by the state for geopolitical ends Notwithstanding this state power the research presented also shows how young people have agency and make decisions about their lives which are influenced by wider geopolitical processes The focus on the lives of children and young people problematises and extends what it is we think of when considering the geopolitical which enriches as well as advances critical geopolitical enquiry and deserves to be taken seriously by political geographies more broadly

Why Washington Won't Work Marc J. Hetherington, Thomas J. Rudolph, 2015-09-14 Polarization is at an all time high in the United States But contrary to popular belief Americans are polarized not so much in their policy preferences as in their feelings toward their political opponents To an unprecedented degree Republicans and Democrats simply do not like one another No surprise that these deeply held negative feelings are central to the recent also unprecedented plunge in congressional productivity The

past three Congresses have gotten less done than any since scholars began measuring congressional productivity In *Why Washington Won't Work* Marc J Hetherington and Thomas J Rudolph argue that a contemporary crisis of trust people whose party is out of power have almost no trust in a government run by the other side has deadlocked Congress On most issues party leaders can convince their own party to support their positions In order to pass legislation however they must also create consensus by persuading some portion of the opposing party to trust in their vision for the future Without trust consensus fails to develop and compromise does not occur Up until recently such trust could still usually be found among the opposition but not anymore Political trust the authors show is far from a stable characteristic It's actually highly variable and contingent on a variety of factors including whether one's party is in control which part of the government one is dealing with and which policies or events are most salient at the moment Political trust increases for example when the public is concerned with foreign policy as in times of war and it decreases in periods of weak economic performance Hetherington and Rudolph do offer some suggestions about steps politicians and the public might take to increase political trust Ultimately however they conclude that it is unlikely levels of political trust will significantly increase unless foreign concerns come to dominate and the economy is consistently strong

Grandma's Excited to Write a Book! Ann Githere,2019-10-03 Writing a book is an exciting project especially when the topic is so close to home My life story how exciting can that be I found it very appealing But was there something about my story that would appeal to anyone else Born a twin in Honolulu Hawaii just before the bombing of Pearl Harbor I experienced a truly loving family My dad and mom John and Ella Mendiola loved each other and it rubbed off on all of us We all went to Catholic schools and Star of the Sea became the focal point of our lives The Marist Fathers and the Sisters of Notre Dame de Namur were part of our family So it was that I became a Sister of Notre Dame went off to serve God in California and back in Hawaii and finally across the world at the equator in Kenya Then the whole world changed again for me I exchanged the nun's veil for the bride's veil God had decided to reward me for my twenty years of faithful service He gave me Gilbert Gicaru Githere And I said Thank You God Mahalo nui loa [Hands Off My Gun](#)

Dana Loesch,2014-10-21 Respected conservative talk show host blogger and TV commentator Dana Loesch gives her views on the history and intent of the Second Amendment and discusses what she believes gun confiscation would mean to Americans basic rights as citizens How many people in America today are truly well versed in the history of the Second Amendment and why it was included in the Bill of Rights In *HANDS OFF MY GUN* Dana Loesch explains why the Founding Fathers included the right to bear arms in the Bill of Rights and argues that gun control regulations throughout history have been used to keep minority populations under control She also contends that current arguments in favor of gun control are primarily based on emotions and fear This narrative is a must read for every Second Amendment supporter Dana Loesch is a determined and fierce advocate for those rights and shouts out hands off my gun *This Is Not Civil Rights* George I. Lovell,2024-05-31 Since at least the time of Tocqueville observers have noted that Americans draw on the language of rights

when expressing dissatisfaction with political and social conditions As the United States confronts a complicated set of twenty first century problems that tradition continues with Americans invoking symbolic events of the founding era to frame calls for change Most observers have been critical of such rights talk Scholars on the left worry that it limits the range of political demands to those that can be articulated as legally recognized rights while conservatives fear that it creates unrealistic expectations of entitlement Drawing on a remarkable cache of Depression era complaint letters written by ordinary Americans to the Justice Department George I Lovell challenges these common claims Although the letters were written prior to the emergence of the modern civil rights movement which most people assume is the origin of rights talk many contain novel legal arguments including expansive demands for new entitlements that went beyond what authorities had regarded as legitimate or required by law Lovell demonstrates that rights talk is more malleable and less constraining than is generally believed Americans he shows are capable of deploying idealized legal claims as a rhetorical tool for expressing their aspirations for a more just society while retaining a realistic understanding that the law often falls short of its own ideals
