

Kirby Lester® KL15e Easy-Start Guide

Set-up:

You will need no tools and only 10 minutes to begin using your KL15e. It's that easy!

1. Remove the unit from the shipping box and place the unit on the pharmacy counter. **NOTE:** Save the shipping box and packing materials in case the unit needs to be serviced in the future.
2. Assemble the two funnel pieces and place it into the square collar on the top of the unit.
3. Slide the counting tray completely into the bottom front.
4. Connect the power cord to the right side of the unit and plug the other end into a standard 110-volt outlet. Turn the power switch to "On".

Operation:

1. Once three **red** zeros appear on the main screen, the unit is ready.
2. Pour tablets/capsules as close to the **outer edge** of the funnel as possible so they gently tumble into the hole. **Do not pour tablets directly into the funnel hole.** This will cause counting errors.
3. As you approach your target count, slow your pouring speed and stop at your target count (displayed in **red** on-screen).
4. Select a vial according to the Container Size indicator (**green**, in drams).
5. Pour the tablets from the tray into the vial. Return the tray, inserting completely.
6. Press Zero and three **red** Zeros will appear on-screen. You are ready to start the next order.

Error Message – Pouring Too Quickly:

The Kirby Lester unit will display an error message when you are pouring too quickly.

- The **Slow** indicator will illuminate in **orange**. Slow down immediately.
- If you continue to pour too quickly, the Quantity display will read **O-S (Over Speed)**.
- Stop, empty pills from the tray, press Zero and repeat the count.
