

The Social Model of Disability

The Social Model of Disability states that the oppression and exclusion people with impairments face is caused by the way society is run and organised.

Environmental Contexts And Disability 8 Research In Social Science And Disability:

Environmental Contexts and Disability Barbara Altman, Sharon N. Barnartt, 2014-11-07 This volume presents papers which address both individual and societal levels of environment in relation to disability and shed new light on the processes involved with creating or modifying these environmental supports or barriers

The Routledge International Handbook of Disability Human Rights Hierarchies Stephen Meyers, Megan McCloskey, Gabor Petri, 2023-10-31 Disability is defined by hierarchy Regardless of culture or context persons with disabilities are almost always pushed to the bottom of the social hierarchy With the advent of the Convention on the Rights of Persons with Disabilities 2006 disability human rights seemingly provided a path forward for tearing down ableist social hierarchies and ensuring that all persons with disabilities everywhere were treated equally Despite important progress the disability human rights project not only remains incomplete but has often created new hierarchies among persons with disabilities themselves or across the human rights it promotes Certain groups of persons with disabilities have gained new voices while others remain silenced and certain rights are prioritized over others depending on what states international organizations or advocates want rather than what those on the ground need most This volume was inspired both by the continued need to expose human rights violations against persons with disabilities but to also explore the nuanced role that hierarchies play in the spread implementation and protection of disability human rights The enjoyment of human rights is not equal nor is the recognition of specific individuals and groups rights In order to change this situation inequalities across the disability human rights movement must be explored Divided into five parts Who counts as disabled Political social and cultural context Which rights on top whose rights on bottom Pushed to the periphery in the disability rights movement Representations of disability and comprised of 34 newly written chapters including case studies from the Anglophone Caribbean Bangladesh Bosnia Herzegovina China Ghana Haiti Hungary India Israel Kenya Latin America Poland Russia Scotland Serbia and South Africa and other countries this book will be of interest to all scholars and students of disability studies sociology human rights law and social policy

Disabilities and the Life Course Heather E. Dillaway, Carrie L. Shandra, Alexis A. Bender, 2023-07-31 Featuring a framework rarely applied in the field of disability studies this book explores not only a range of disabilities and impairments but also a diverse array of life course experiences deepening knowledge across both fields for the widest possible impact

Disability and the Changing Contexts of Family and Personal Relationships Gabriele Ciciurkaite, Robyn Lewis Brown, 2024-06-10 Showcasing conceptually innovative work and cutting edge methods related to the study of families this volume presents not just a groundbreaking perspective on disability and family life but also a new paradigm in disability scholarship

Sociology Looking at Disability Sara E. Green, Sharon N. Barnartt, 2016-12-22 The purpose of this volume is to explore existing literature with an eye towards encouraging scholars not to ask the same old questions but to use older writings as a basis for revolutionary and evolutionary thinking What do the older writings tell us about what questions we should be asking and

what research we should be doing today

Disability, Intersectional Agency, and Latinx Identity Alexis

Padilla,2021-07-28 This interdisciplinary volume links disability and agency by exploring LatDisCrit's theory and activist emancipatory practice. It uses the author's experiential and analytical views as a blind brown Latinx engaged scholar and activist from the global south living and struggling in the highly racialized global north context of the United States. LatDisCrit integrates critically LatCrit and DisCrit which look at the interplay of race, ethnicity, diasporic cultures, historical sociopolitics, and disability within multiple Latinx identities in mostly global north contexts while incorporating global south epistemologies. Using intersectional analysis of key concepts through critical counterstories following critical race theory, methodological traditions, and engaging possible decoloniality treatments of material precarity and agency, this book emphasizes intersectionality's complex underpinnings within and beyond Latinidades. Through a careful interplay of disability, identity, and disability rights empowerment, the volume opens avenues for intersectional solidarity and spaces for radical transformational learning. This book will be of interest to all scholars and students working in disability studies, intersectional disability justice, activists, critical Latinx/Chicanx studies, critical geographies, intersectional political philosophy, and political and public sociology.

Disability Human Rights Law

Anna Arstein-Kerslake,2018-07-02 This book is a printed edition of the Special Issue Disability Human Rights Law that was published in Laws.

Metanarratives of Disability

David Bolt,2021-05-26 This book explores multiple metanarratives of disability to introduce and investigate the critical concept of assumed authority and the normative social order from which it derives. The book comprises 15 chapters developed across three parts and informed by disability studies. It is authored by those with research interests in the condition on which they focus, as well as direct or intimate experiential knowledge. When out and about, many disabled people know only too well what it is to be erroneously told the error of our ways by non-disabled passers-by, assumed authority often cloaked in helpfulness. Showing that assumed authority is underpinned by a displacement of personal narratives in favour of overarching metanarratives of disability that find currency in a diverse multiplicity of cultural representations ranging from literature to film, television, advertising, social media, comics, art, and music, this work discusses how this relates to a range of disabilities and chronic conditions including blindness, autism, Down syndrome, diabetes, cancer, and HIV and AIDS.

Metanarratives of Disability will be of interest to all scholars and students of disability studies, medical sociology, medical humanities, education studies, cultural studies, and health. It offers a well-structured, accessible collection of disability narratives that foreground disabled voices. Journal of Literary and Cultural Disability Studies 16(1) 2022.
