

## How to Write A DBQ (Document Based Question)

Use the information below as both a teacher's guide as well as to introduce DBQs to the students. It is recommended that the process be broken down into smaller steps and modeled for students in order for them to be successful and produce good quality work.

### **What is a DBQ?**

DBQ stands for **Document Based Question**. It is a type of essay that provides you with documents to serve as sources of information for your writing. The DBQ does not test your content knowledge, but tests your reading comprehension and analysis skills. By following this guide, you will be able to write a DBQ on any topic!

Each DBQ you take will look very similar. There are certain things that are always given to you:

- **Historical Context:** This is a paragraph that tells you some background information about the topic of the essay. This will help you write your introduction.
- **Task:** This is the actual question that you are attempting to answer in the essay. This will help you to write your **thesis**. The thesis can be the first or last sentence of your introduction. You will learn how to write a thesis in the pages that follow.
- **Documents and Scaffolding Questions:** There will typically be 5-7 documents that will be used to help you write your essay. Each document may have anywhere from 1-3 questions that you must answer before writing the essay. These questions will help get you thinking about how to shape your essay.

**Step One: Analyze the task.** Without a clear understanding of what the task is asking you to do, you cannot write a good answer in a full sentence.

The task may ask you to do any of the following things:

- **Analyze** – determine their component parts; examine their nature and relationship
- **Assess/Evaluate** – judge the value or character of something; appraise; evaluate the positive points and the negative ones; give an opinion regarding the value of; discuss the advantages and disadvantages of
- **Compare** – examine for the purpose of noting similarities and differences.
- **Contrast** – examine in order to show dissimilarities or points of difference.
- **Describe** – give an account of; tell about; give a word picture of.
- **Discuss** – talk over; write about; consider or examine by argument or from various points of view; debate; present the different sides of the topic.
- **Explain** – make clear or plain; make clear the causes or reasons for; make known in detail; tell the meaning of.

### **Step Two: Understand key terms within the question.**

All DBQs should address either attitudes and reactions, or political, economic, social (class), cultural, and technological aspects within the question (you will know what to address because those specific words will be in the question).
