Are There People Without a Self? Ermuth Johannes Grosse, 2021-10-28 That in our times a kind of supernumerary person is appearing who is egoless who in reality is not a human being is a terrible truth Rudolf Steiner Are there people on earth today who do not have a self a human ego or I The phenomenon of egolessness the absence of a human being's core was discussed by the spiritual teacher Rudolf Steiner in lectures and personal conversations An egoless individual he intimated is an empty sheath through which other spiritual entities could operate Erdmuth J Grosse brings together many little known quotations from Rudolf Steiner's spiritual research and supports them with a wealth of disquieting reports testimonies and examples from literature and politics He places these insights within the broader context of the riddle of the human self throwing light on the spiritual development of the individual and humanity as a whole In this thought provoking study Grosse goes on to discuss the role of comets the effects of cyanide on the human constitution especially in the light of the Holocaust and the hidden effects of ceremonial magic occult lodges cults and sects In conclusion he offers positive solutions to humanity's present predicament by describing the healing impulses of social threefolding the invisible spiritual beings seeking to help humanity the role of the gods the Christ impulse and the true goals of human evolution **The Appearance of Christ in the Etheric** Sergei O. Prokofieff, 2012 Dedicated to the centenary of Rudolf Steiner's first proclamation of Christ's appearance in the etheric realm of the Earth this book discusses various aspects of that event that had not previously been addressed adequately Sergei Prokofieff points to three themes of primary importance all of which are connected directly with the tasks of the Society that Rudolf Steiner founded The preparation of humankind for the Second Coming Working with Christ as the Lord of Karma Recognizing in Anthroposophy the spiritual language through which questions can be posed to the etheric Christ today Prokofieff describes these and other critical undertakings such as forging a strong relationship with Michael and the importance of recognizing the adversarial forces attempting to falsify Christ's Second Coming The Appearance of Christ in the Etheric is of relevance to every individual who wishes to take an active role in fulfilling the needs of our time *Aghātiyā Karmas* Kristi Lynn Wiley, 2000 **Fruits of Anthroposophy** George Kaufmann, 1922 **A Woman's Path** Almut Bockemühl, 2009 A woman who wishes simultaneously to find herself as an individual and to devote herself to motherhood is caught between two extremes that are hard to reconcile how to integrate motherhood with one's deepest personal aims Women today face the challenge of integrating the frequently conflicting demands of motherhood partnership work and personal development Writing from the experience of thirty three years of marriage and raising four children Almut Bockemühl is well qualified to understand the predicaments that women face and to offer empathy based on first hand knowledge Moreover this book offers profound spiritual direction for each woman seeking to meet the challenges of her unique biography At the heart of the dilemma is family care and the need for individual expression in a creative capacity self discovery and achieving personal goals The natural desire for children does

Reality, Truth and Evil Thomas Meyer, 2005 Using the events of 9/11 and Pearl Harbor as his backdrop Meyer studies the issues of reality truth and evil Offering important new perspectives he shows that U.S. political practice under the influence of secret societies such as Skull and Bones is based on an ideology of polarity and conflict Meyer offers instances of this tendency encouraging what Huntington famously referred to as a clash of civilizations For example a week before George Bush Sr spoke in Congress about the need for a new world order a humorous cartoon map in the *Economist* divided the world's continents into religious and philosophical blocks creating a new region called Islamistan In 1997 National Security Advisor Zbigniew Brzezinski wrote openly of U.S. geo-strategic plans stating that it would be hard to achieve such goals except in the circumstances of a truly massive and widely perceived direct external threat It seems that this was granted with the events of September 11, 2001 and the consequent launch of the war on terror The immediate comparisons led by George W. Bush with Pearl Harbor demand a reassessment of the events of 1941 Meyer points to conclusive evidence suggesting that Roosevelt deliberately provoked the attacks and failed to pass on intelligence to US Navy chiefs Could it be possible that certain members of the U.S. elite likewise deliberately remained passive before 9/11 Why only two weeks after the attacks were celebrations held at CIA headquarters in which Bush profusely thanked the secret services on behalf of the American people In contrast to the divisive thinking and conflict management of leading representatives of the Anglo-American elite inspired by a contorted reading of some basic insights of the philosopher Hegel the author shows

how the holistic approach of Rudolf Steiner and Mabel Collins offers a radical alternative for dealing with polarities and overcoming conflict

A Commerce of Knowledge Simon Mills,2020-01-07 A Commerce of Knowledge tells the story of three generations of Church of England chaplains who served the English Levant Company in Syria during the seventeenth and eighteenth centuries Reconstructing the careers of its protagonists in the cosmopolitan city of Ottoman Aleppo Simon Mills investigates the links between English commercial and diplomatic expansion and English scholarly and missionary interests the study of Middle Eastern languages the exploration of biblical and Greco Roman antiquities and the early dissemination of Protestant literature in Arabic Early modern Orientalism is usually conceived as an episode in the history of scholarship By shifting the focus to Aleppo A Commerce of Knowledge brings to light the connections between the seemingly separate worlds tracing the emergence of new kinds of philological and archaeological enquiry in England back to a series of real world encounters between the chaplains and the scribes booksellers priests rabbis and sheikhs they encountered in the Ottoman Empire Setting the careers of its protagonists against a background of broader developments across Protestant and Catholic Europe Mills shows how the institutionalization of English scholarship and the later English attempt to influence the Eastern Christian churches were bound up with the international struggle to establish a commercial foothold in the Levant He argues that these connections would endure until the shift of British commercial and imperial interests to the Indian subcontinent in the second half of the eighteenth century fostered new currents of intellectual life at home
